Trust Established 31 March 2017, in Jersey

**Domicile** Jersey

Constitution Hollyport Secondary Opportunities VI Unit Trust (the "Unit

Trust") was constituted out of the proceeds of issues of Units paid or transferred to the Trustee and held as part of the trust fund in accordance with the Declaration of Trust (the "Trust Instrument") dated 31 March 2017 and as amended and

restated 29 September 2017.

The Trustee holds the Trust Fund on trust for the Unitholders on the terms and subject to the powers and provisions of the aforementioned Declaration of Trust. The notes set out above are merely an aide-memoire. For any matters requiring detailed consideration reference should be made to the aforementioned Declaration of Trust.

#### REPORT OF THE TRUSTEE AND AIFM FOR THE YEAR ENDED 31 DECEMBER 2019

Hollyport Secondary Opportunities Management Limited (the "Trustee" and "AIFM") presents its annual report and the audited financial statements of Hollyport Secondary Opportunities VI Unit Trust (the "Unit Trust") for the year ended 31 December 2019.

The Unit Trust was established on 31 March 2017. The Unit Trust held its first issue on 20 April 2017 and its final issue on 29 September 2017 with total commitments of USD500,010,000. If not terminated earlier, the Unit Trust shall terminate ten years from first issue date, being 20 April 2027.

#### Responsibilities of the Trustee for the financial statements

The Trust Instrument and prospectus requires the Trustee to prepare the financial statements. The Trustee has elected to prepare the financial statements in accordance with the International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board.

In preparing these financial statements the Trustee is required to:

- Select suitable accounting policies and then apply them consistently;
- Make judgements and estimates that are reasonable and prudent;
- State whether applicable accounting standards have been followed, subject to any material departures disclosed and explained in the financial statements; and
- Prepare the financial statements on a going concern basis unless it is inappropriate to presume that the Unit Trust will continue in business.

The Trustee confirms it has complied with all the above requirements in preparing the financial statements.

The Trustee is responsible for keeping proper accounting records which disclose with reasonable accuracy at any time the financial position of the Unit Trust and to enable it to ensure that the financial statements comply with the Trust Instrument. The Trustee is also responsible for safeguarding the assets of the Unit Trust and hence taking reasonable steps for the prevention and detection of fraud and other irregularities.

#### **Objectives**

The objective of the Unit Trust is to acquire investments by way of mature private equity interests and to subsequently realise profits on such interests over the intended realisation period of the Unit Trust of ten years or less.

#### Going concern and capital management

As disclosed in note 2.1 to these financial statements, the Unit Trust meets its funding requirements from Unitholders' subscriptions, and retentions made on realisation of investments. Note 3 sets out the Unit Trust's exposure to and management of the various facets of its perceived financial risk.

The Trustee considers that the Unit Trust has adequate means of meeting its financial obligations and is well positioned to manage its business risks for the next twelve months from the date of issue of the financial statements. Accordingly, it continues to adopt the going concern basis in the preparation of the financial statements.

## REPORT OF THE TRUSTEE AND AIFM - continued FOR THE YEAR ENDED 31 DECEMBER 2019

#### Results and distribution

The results for the year are set out on page 13. There have been no distributions for the year.

#### Accounting year

These audited financial statements cover the year ended 31 December 2019. Comparative figures are covering the year from 1 January 2018 to 31 December 2018.

#### Stock Exchange listing

The Unit Trust's A and B units are listed on The International Stock Exchange ("TISE").

#### **Fund Reporting Status**

Confirmation has been received from HM Revenue and Customs that, under Regulation 55(1) (a) of The Offshore Funds (Tax) Regulations 2009, the Unit Trust has been accepted into the Reporting Fund regime with effect from 31 March 2017.

#### Independent auditor

Deloitte LLP have expressed their willingness to continue in office as auditor.

The report of the Alternative Investment Fund Manager ("AIFM") is as detailed below.

The remuneration paid to Hollyport Secondary Opportunities Management Limited as AIFM is disclosed in note 10 to these financial statements.

#### European Union Alternative Investment Fund Managers Directive ("AIFMD")

Hollyport Secondary Opportunities Management Limited has been granted approval by the UK's Financial Conduct Authority ("FCA") to act as a full scope Alternative Investment Fund Manager ("AIFM") of the Unit Trust (the Alternative Investment Fund ("AIF") under the AIFMD).

#### Material change

Hollyport Secondary Opportunities Management Limited as AIFM must disclose in the annual report, details of material changes to the information set out under AIFMD. For these purposes, there are no material changes effective during the year to be noted to the information set out in the Prospectus dated 29 September 2017.

#### **Brexit** impact

The UK left the European Union on 31 January 2020. As disclosed in note 3, the Unit Trust has invested principally in USD denominated assets and GBP risk is thus not considered to be material. The Trustee does not therefore anticipate a material impact arising from Brexit.

#### Disclosure of holding

The only investor that owns 10% or more of the units in the Unit trust is Hollyport Secondary Opportunities VI LP with 73.05% units held.

## REPORT OF THE TRUSTEE AND AIFM – continued FOR THE YEAR ENDED 31 DECEMBER 2019

#### Remuneration disclosures

Under the AIFMD legislation, an AIFM must, where appropriate for each Alternative Investment Fund ("AIF") it manages, disclose in the Unit Trust's annual report the total amount of remuneration paid to its staff for the financial year, split into fixed and variable remuneration, and where relevant, any carried interest paid by the AIF. The aggregate amount of remuneration broken down by senior management and members of staff whose actions have a material impact on the risk profile of the AIF must also be disclosed.

The only employees of the AIFM are its Directors consisting of Oliver Morris, David Hall, and Ashley Vardon. Oliver Morris and Ashley Vardon are employees and shareholders in Sanne Group, whilst David Hall is a non-executive director. Further details on related parties are disclosed in note 10 to the financial statements.

No carried interest was paid by the AIF for the year ended 31 December 2019 (31 December 2018: USD nil). At year end the value of C units, held by current and previous partners and employees of Hollyport Capital LLP, was USD9,210,201 (31 December 2018: USD8,382,887) as disclosed in note 9 to these financial statements.

Signed on behalf of the Trustee and AIFM,

Hollyport Segondary Opportunities Management Limited

6 March 2020

#### INVESTMENT ADVISOR REPORT FOR THE YEAR ENDED 31 DECEMBER 2019

We are pleased to present the Investment Advisor's Report for Hollyport Secondary Opportunities VI Unit Trust (the "Unit Trust") and Hollyport Secondary Opportunities VI LP (the "Limited Partnership") together (the "Fund"), covering the year to 31 December 2019.

The Fund was launched in January 2017 and held its final close in September 2017, bringing the total committed capital in the Fund to \$500m. The Fund structure comprises a Unit Trust and a Limited Partnership which holds a pro-rata share of the underlying fund assets. The Fund has called 70% of investors' commitments.

The Fund has signed binding sale and purchase agreements for twenty-nine acquisitions, of which the final four were agreed in Q2 2019. The Fund has also made six primary commitments. In total, the Fund has acquired interests in 571 unique funds at an aggregate cost of \$750m.

The total net asset value of the assets remaining at 31 December 2019 is \$665m. The acquired assets are primarily US and European focused with additional exposure to Asia and the Middle East. The Fund holds a diverse spread of assets with the portfolio split between buyout, growth and venture.

We expect the realisations over the next twelve months will provide sufficient capital to meet the cost of the final acquisitions by the Fund and repay all outstanding debt facilities. As a result, we do not envisage further capitals calls on investors.

Hollyport Capital LLP Investment Advisor 6 March 2020

### Report on the audit of the financial statements

### 1. Opinion

In our opinion the financial statements of Hollyport Secondary Opportunities VI Unit Trust (the 'trust'):

- give a true and fair view of the state of the trust's affairs as at 31 December 2019 and of the trust's profit for the year then ended;
- have been properly prepared in accordance with International Financial Reporting Standards (IFRSs)
  as issued by the International Accounting Standards Board (IASB); and
- have been properly prepared in accordance with the Trust Deed.

We have audited the financial statements of the trust which comprise:

- the statement of financial position;
- the statement of comprehensive income;
- the statement of changes in net assets attributable to unitholders;
- the statement of cash flows; and
- the related notes 1 to 12.

The financial reporting framework that has been applied in their preparation is applicable law and IFRSs as issued by the International Accounting Standards Board (IASB) and the Trust Deed.

### 2. Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the auditor's responsibilities for the audit of the financial statements section of our report.

We are independent of the trust in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, including the Financial Reporting Council's (the 'FRC's') Ethical Standard as applied to listed entities, and we have fulfilled our other ethical responsibilities in accordance with these requirements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### 3. Summary of our audit approach

Key audit matter	The key audit matter that we identified in the current year was:  • Valuation of investments recognised at FVTPL				
	The Key audit matter in this report is consistent with that reported in prior year.				
Materiality	The materiality that we used in the current year was \$11,969,000 which was determined on the basis of 2% of the Net Asset Value of the trust at 31 December 2019.				
Scoping	Audit work to respond to the risks of material misstatement was performed directly by the audit engagement team.				
Significant changes in our approach	There has been no significant change in our approach compared to prior year.				

### 4. Conclusions relating to going concern

We are required by ISAs (UK) to report in respect of the following matters where:

- the Trustee's use of the going concern basis of accounting in preparation of the financial statements is not appropriate; or
- the Trustee has not disclosed in the financial statements any identified material uncertainties that may cast significant doubt about the trust's ability to continue to adopt the going concern basis of accounting for a period of at least twelve months from the date when the financial statements are authorised for issue.

We have nothing to report in respect of these matters.

### 5. Key audit matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial statements of the current period and include the most significant assessed risks of material misstatement (whether or not due to fraud) that we identified. These matters included those which had the greatest effect on: the overall audit strategy, the allocation of resources in the audit; and directing the efforts of the engagement team.

These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

#### 5.1. Valuation of investments recognised at FVTPL

### Key audit matter description

The trust's investments (see note 5 to the financial statements) measured at fair value of \$564,392,543 (2018: \$663,358,229) comprise 94.2% (2018: 126.94%) of its net asset value.

The investments include investments in private equity funds (the "Funds") managed by third parties held both directly and indirectly via intermediate holding companies (the SPVs).

The trust recognises and measures investments at fair value with gains and losses recognised through profit or loss ("FVTPL") in accordance with IFRS and are classified as Level 3 in the fair value hierarchy in accordance with IFRS 13.

The accounting policy for the fair value estimation of the investments as specified in Note 2.7(c) to the financial statements is based on the trust's share of the most recent net asset values (NAV) reported by the Funds as adjusted for calls and distributions made by the Funds and any other value sensitive events that occur between the Funds' reported NAV date and the reporting date of the trust. In many instances, reliance is placed on the financial data of the Funds and on estimates by the management of the Funds.

The valuations of investments involve significant levels of judgement as unobservable inputs are used in the overall process of determining the fair value best estimate of the investments using unaudited net asset values of the Funds where audited accounts of the Funds are not available for the same period. Our risk is specifically driven by these:

- fair value accounting principles not yet adopted;
- fair value principles incorrectly applied; or

capital account statement, being non-coterminous, not adjusted for movements to the trust's reporting date.

How the scope of our audit responded to the key audit matter

We obtained an understanding of the valuation process and identified all the key controls related to the valuation of investments.

We obtained an understanding of, and tested, the operating effectiveness of the key controls at the Investment Advisor related to valuation of investments.

We reviewed the December valuations produced by the Investment Advisor to fully understand the valuation methodology and adjustments made to arrive at fair value estimate.

For a sample of investments, we performed the following procedures:

- We challenged the investment advisor on the key assumptions in the valuation where these changed significantly since the previous valuation and have not been adequately supported.
- Obtained independent confirmation of the NAV directly from the administrator or the General Partner of the underlying investee entity and agreed this to the valuation produced by the Investment Advisor;
- We obtained the latest audited financial statements and corresponding unaudited NAV used in valuing underlying investee entity and compared these, and investigated differences where applicable;
- We reviewed the underlying investee entity's audit opinion and the accounting principles applied in the audited financial statement and verified that these were consistent with the fair value accounting principles;
- We obtained independent confirmation of all the draw downs and distributions and other NAV sensitive events between the NAV date and trust's reporting date from the General Partner/Administrator of the underlying investee entity to verify the completeness of the NAV sensitive adjustments made to the latest NAV:
- We compared the fair value estimate used in valuing investments at 31 December 2018 and actual reported NAV by the underlying investee entity at 31 December 2018 to assess the estimation accuracy process at the investment advisor ("back testing");
- We reviewed latest unaudited NAV used in the valuation of investment for any change in the valuation methodology applied in valuing the underlying investment compared to the valuation methodology used in the latest audited financial statements of the underlying investee entity; and
- In certain instances where the investment was acquired close to year end and no updated NAV was received by the trust close to year end, we agreed the NAV used by the trust to the NAV outlined in the Sale and Purchase Agreement and agreed the adjustments made to the NAV to arrive at the fair value estimate of the valuation of investment by the trust from the underlying source documents (i.e. calls and distributions notices in majority of the cases).

**Key observations** 

Based on the work performed we concluded that the valuation of investments recognised at FVTPL is appropriate.

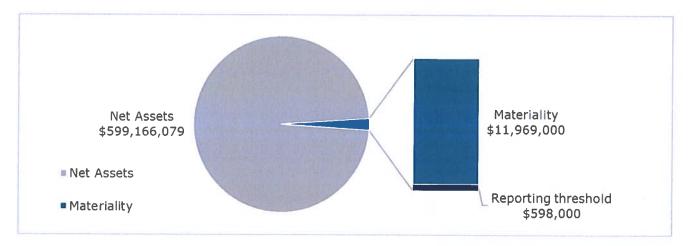

### 6. Our application of materiality

#### 6.1. Materiality

We define materiality as the magnitude of misstatement in the financial statements that makes it probable that the economic decisions of a reasonably knowledgeable person would be changed or influenced. We use materiality both in planning the scope of our audit work and in evaluating the results of our work.

Based on our professional judgement, we determined materiality for the financial statements as a whole as follows:

Materiality	\$11,969,000 (2018: \$10,450,000)
Basis for determining materiality	2% of Net Asset Value (2018: 2% of Net Asset Value)
Rationale for the benchmark applied	Net Asset Value is the Key Performance Indicator of the trust. The holders of units are interested in capital appreciation of their investment, thus NAV is appropriate.

#### 6.2. Performance materiality

We set performance materiality at a level lower than materiality to reduce the probability that, in aggregate, uncorrected and undetected misstatements exceed the materiality for the financial statements as a whole. Performance materiality was set at 70% of materiality for the 2019 audit (2018: 70%). In determining performance materiality, we considered the following factors:

- a. the quality of the control environment and whether we were able to rely on controls;
- b. fraud risk and overall engagement risk;
- c. expected increase in accounting issues that require significant judgment and/or more judgment in estimation;
- d. number of significant and higher risks of material misstatement; and
- e. the level of corrected and uncorrected misstatements identified in previous audits.

#### 6.3. Error reporting threshold

We agreed with the Trustee that we would report to the Trustee all audit differences in excess of \$605,000 (2018: \$522,000), as well as differences below that threshold that, in our view, warranted reporting on qualitative grounds. We also report to the Trustee on disclosure matters that we identified when assessing the overall presentation of the financial statements.

### 7. An overview of the scope of our audit

#### 7.1. Scoping

Our audit was scoped by obtaining an understanding of the trust and its environment, including internal control and assessing the risks of material misstatement. Our audit scope included the assessment of the design and implementation of accounting processes and controls in place at the third party accounting service provider. Audit work to respond to the risks of material misstatement was performed directly by the audit engagement team.

We tailored the scope of our audit in order to perform sufficient work to enable us to provide an opinion on the financial statements of the trust, taking account of the structure of the trust.

#### 8. Other information

The Trustee is responsible for the other information. The other information comprises the information included in the annual report, other than the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether there is a material misstatement in the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in respect of these matters.

### 9. Responsibilities of the Trustee

As explained more fully in the responsibilities of the Trustee for the financial statements in the report of the Trustee, the Trustee is responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view, and for such internal control as the Trustee determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Trustee is responsible for assessing the trust's ability to continue as a going concern, disclosing as applicable, matters related to going concern and using the going concern basis of accounting unless the Trustee either intend to liquidate the trust or to cease operations, or have no realistic alternative but to do so.

# 10. Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of our responsibilities for the audit of the financial statements is located on the FRC's website at: <a href="https://www.frc.org.uk/auditorsresponsibilities">www.frc.org.uk/auditorsresponsibilities</a>. This description forms part of our auditor's report.

### 11. Use of our report

This report is made solely to the unit holders in accordance with the Trust Deed. Our audit work has been undertaken so that we might state to the unit holders those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the unit holders and the trust as a body, for our audit work, for this report, or for the opinions we have formed.

The engagement partner on the audit resulting in this independent auditor's report is Theo Brennand.

Deloitte LLP St Helier, Jersey 6 March 2020

#### 1. General information

The Unit Trust is a Jersey closed-ended regulated exchange-traded fund whose registered office is given in the notes from the Trust Instrument and Prospectus on page 1 of this report. Its objective is to acquire interests in mature private equity funds and to subsequently realise profits on such interests over the intended realisation period of the Unit Trust of ten years or less.

The Unit Trust has issued four classes of units, being A, B, C and LP units. The A, B and C units (the "Investor Units") were issued to investors subscribing up to USD5,000,000 each in the Unit Trust and the LP units to investors generally subscribing in excess of that amount. The distribution policy is detailed in note 2.10.

The Trustee and AIFM is Hollyport Secondary Opportunities Management Limited, a Jersey incorporated company. The Trustee is responsible for the management and administration of the business, affairs and investments of the Unit Trust in accordance with the terms of the Trust Instrument.

The Trustee has appointed Hollyport Capital LLP, a limited liability partnership incorporated in England, as the Investment Advisor of the Trust, and Sanne Fund Administration Limited, a Jersey incorporated company, as the administrator.

#### 2. Summary of significant accounting policies

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all years presented unless otherwise stated in note 2 below.

#### 2.1 Basis of preparation

#### Going Concern basis

The Trust meets its working capital requirements through commitments made by the unitholders. The Trust also holds a loan facility with Nomura Corporate Funding Americas LLC by its subsidiary HCP VI Holdings SLP. At the year end there was an outstanding balance of USD117 million (2018: USD10 million) on this loan facility, with USD5 million remaining available to be drawn. In addition, the Trust receives ongoing distribution from its investments. The Trustee has assessed the projected cash flows and concluded that the Trust has available funds to meet its long term obligations. The Trustee has also assessed the forecast of the likely income, expenditure and advances of the next twelve months and concluded that the Trust has sufficient funds to meet its short term obligations as they fall due.

These financial statements have been prepared on a going concern basis in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board. The financial statements have been prepared under the historical cost convention, as modified by the revaluation of financial assets held at fair value through profit or loss ("FVTPL").

The preparation of financial statements in conformity with IFRS requires the use of accounting estimates and exercise of judgement by the Trustee while applying the Unit Trust's accounting policies. These estimates are based on the Trustee's best knowledge of the events which existed at the year end date; however, the actual results may differ from these estimates. One of the areas requiring a higher degree of judgement and which involves significant assumptions is the valuation of investments which are classified as 'financial assets at FVTPL'. The valuation methodology is discussed in detail in note 2.7 to these audited financial statements.

#### 2. Summary of significant accounting policies - continued

#### 2.1 Basis of preparation – continued

New Accounting Standards, amendments to existing Accounting Standards and/or interpretations of existing Accounting Standards (separately or together, "New Accounting Requirements") adopted during the current year

The Directors have assessed the impact, or potential impact, of all New Accounting Requirements. In the opinion of the Directors, there are no mandatory New Accounting Requirements applicable in the current year that had any material effect on the reported performance, financial position, or disclosures of the Unit Trust. Consequently, no mandatory New Accounting Requirements are listed. The Unit Trust has not early adopted any New Accounting Requirements that are not mandatory.

#### Non-mandatory New Accounting Requirements not yet adopted

All non-mandatory New Accounting Requirements in issue are either not yet permitted to be adopted or, in the Directors' opinion, would have no material effect on the reported performance, financial position, or disclosures of the Unit Trust and consequently have neither been adopted, nor listed.

#### Investment entity and consolidation

The Unit Trust meets the definition of an investment entity under IFRS 10 and therefore is not required to prepare consolidated financial statements. The exception to consolidation requires investment entities to account for subsidiaries at FVTPL. The Unit Trust has multiple unrelated Unitholders and holds multiple investments. Ownership interests in the Unit Trust are in the form of units which are classified as liabilities under the provisions of IAS 32. The Trustees have determined that the Unit Trust meets the definition of an investment entity per IFRS 10 as the following conditions exist:

- the Unit Trust has obtained funds for the purpose of providing Unitholders with professional investment management services;
- the Unit Trust's business purpose, which was communicated directly to Unitholders, is investing for capital appreciation and investment income; and
- the investments are measured and evaluated on a fair value basis.

An investment entity does not present consolidated financial statements if it is required to measure all of its subsidiaries at FVTPL. An investment entity shall not consolidate its subsidiaries or apply IFRS 3 when it obtains control of another entity, except in limited circumstances, explained below. Instead, an investment entity shall measure an investment in a subsidiary at FVTPL in accordance with IFRS 9 Financial Instruments.

An investment entity is exempt from consolidation on the date it meets the classification of an investment entity, and the exemption ceases when the investment entity no longer qualifies. The only exception is for subsidiaries that provide services relating to the same investment activities, which are consolidated.

### 2. Summary of significant accounting policies – continued

#### 2.1 Basis of preparation – continued

#### Investment entity and consolidation - continued

The Unit Trust holds 100% of the interest in HCP VI Holdings SLP (the "SLP") and Hollyport VI Holdings SLP (the "SLP"), which were established in Jersey and which are managed by Hollyport VI Holdings GP Limited. The SLPs have been incorporated for the purpose of holding underlying investments on behalf of the Unit Trust. The SLPs have no operations other than providing vehicles for the acquisition, holding and onward sale of certain underlying partnerships. The SLPs are also reflected at their fair value, with the key fair value driver being the investments in underlying partnerships that the SLPs holds on behalf of the Unit Trust. The SLPs do not require consolidation as the Unit Trust is classified as investment entity as defined by IFRS 10.

### 2.2 Critical accounting estimates and judgements in applying accounting policies

The Trustee makes estimates and assumptions that affect the reported amounts of assets and liabilities within the next financial year. Estimates are continually evaluated and based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

One of the key accounting estimates is in respect of the determination of the fair value of investments. The methodology used in determining fair values is disclosed in note 2.7(c).

The key accounting judgement is in respect of the determination of the investment entity status as outlined in note 2.1. Although the Trustee met all three defining criteria, the Trustee has also assessed the business purpose of the Unit Trust, the investment strategies for the investments, the nature of any earnings from investments and the fair values. The Trustee made this assessment in order to determine whether any additional areas of judgement exist with respect to the typical characteristics of an investment entity versus those of the Unit Trust.

Another key accounting judgement is in respect of the determination of the functional currency. The methodology used in determining functional currency is disclosed in note 2.5.

Estimates and judgements applied by the Unit Trust are reviewed on a regular basis by the Trustee. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making judgements about the carrying value of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

#### 2.3 Income recognition

The main income generating sources and their recognition principles are described below:

- The income elements of distributions receivable are recognised on the date that the Unit Trust receives the rights thereto and are shown gross of any applicable withholding taxes;
- Deposit interest and equalisation interest are recognised on a time-proportionate basis, using the effective interest method;
- Arrangement fee income is recognised on the date that the amounts are called from investors and matched against the amounts payable to the Investment Advisor; and
- Gains / (losses) on disposal of investments are disclosed in note 2.7(b) to these financial statements.

#### 2. Summary of significant accounting policies – continued

#### 2.4 Expenses

All items of expense are recognised on an accruals basis. Provisions are recognised when:

- The Unit Trust has a present obligation (legal or constructive) as a result of past events;
- It is probable that an outflow of resources embodying economic benefits will be required to settle the obligation; and
- A reliable estimate can be made of the amount of the obligation after taking into account relevant risks and uncertainties which, in the opinion of the Trustee, will affect the amount of the provision at the time of its settlement.

The Unit Trust is responsible for the expenses of Hollyport Secondary Opportunities VI LP (the "Limited Partnership") and Hollyport Secondary Opportunities Management Limited (the "General Partner"). Accordingly, these expenses are included within the Statement of Comprehensive Income of the Unit Trust. Only exception is the Limited Partnership Advisory fee which is reimbursable from the Limited Partnership.

#### 2.5 Foreign currency translation

#### Functional and presentation currency

Items included in the Unit Trust's financial statements are measured and presented in US Dollars ("USD"), the currency in which drawdowns and distributions are made to Unitholders in accordance with the Prospectus and Declaration of Trust and is the currency that most faithfully represents the economic effects to Unitholders and the primary economic environment in which it operates ("the functional currency").

#### Transactions and balances

Foreign currency transactions are translated into the functional currency using the closing exchange rate at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in the Statement of Comprehensive Income. Gains and losses on translation of non-monetary items are presented in the Statement of Comprehensive Income.

#### 2.6 Receivables

Receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. Receivables are recognised initially at fair value. They are subsequently measured at amortised cost using the effective interest method, less expected credit loss. The Unit Trust's impairment policy has been updated to align with the requirements of the IFRS 9 expected credit loss model. Given the nature of receivables and the short time length involved between their origination and settlement, their amortised cost is considered to be the same as their fair value.

#### 2.7 Financial assets at fair value through profit or loss

#### a) Classification

The Unit Trust classifies its investments as financial assets at FVTPL. As these are managed and their performance is evaluated on a fair value basis in accordance with the Unit Trust's documented investment strategy. Financial assets include both debt securities and equity investments.

#### 2. Summary of significant accounting policies – continued

#### 2.7 Financial assets at fair value through profit or loss - continued

#### a) Classification - continued

The Unit Trust's policy requires the Investment Advisor to evaluate the information about these financial assets on a fair value basis together with other related financial information. Assets in this category are classified as current assets if they are expected to be realised within twelve months of the financial year end.

Those not expected to be realised within twelve months of the financial year are classified as non-current assets. Any unrealised gain or loss resulting from the re-measurement of the investments at their fair value is included in the Statement of Comprehensive income of the year in which they arise.

#### b) Recognition, derecognition and measurement

Purchases of investments are recognised on a trade date where the purchase or sale of an investment is under a contract whose terms require delivery of the investment within a timeframe established by the market concerned. This is the date on which the Unit Trust commits to purchase or sell the investment. Financial assets at FVTPL are initially recognised at fair value. Transaction costs are expensed as incurred in the Statement of Comprehensive Income and are shown as deal costs therein. Financial assets are derecognised when the rights to receive cash flows from the investments have expired or the Unit Trust has transferred substantially all risks and rewards of ownership.

Subsequent to initial recognition all financial assets at FVTPL are measured at fair value. Gains and losses arising from changes in their fair value are presented in the Statement of Comprehensive Income in the year in which they arise.

Distributions receivable from investments are recognised when the Unit Trust's right to receive payment is established. The application of the distribution amounts against return of cost, capital gain/loss and income is recognised as return of cost until such time when all costs have been returned at which point realised gain is recognised on any remaining distribution amounts. Realised gains and losses are included in the Statement of Comprehensive Income of the year in which they arise within "realised gains on financial assets at FVTPL".

#### c) Fair value estimation

Fair value is the price that would be received on selling an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

IFRS 13 prescribes how fair values of financial instruments which are traded in active markets should be ascertained but this is not disclosed in these financial statements as the Unit Trust has not owned any such financial instruments in the period up to the reporting date.

Debt investment is measured using the principal plus accrued interest. The Trustee considers that the principal and accrued interest approximates the fair value of the debt investment.

For the investment in Funds, the Trustee believes that the most appropriate estimate of fair value of underlying entities is the Unit Trust's share of the most recent net asset values reported by those entities as adjusted for calls and distributions made by the entities and any other value-sensitive events that occur between the entities' reporting dates and the accounting date of the Unit Trust.

#### 2. Summary of significant accounting policies – continued

#### 2.7 Financial assets at fair value through profit or loss – continued

#### c) Fair value estimation - continued

The valuation techniques also consider the original transaction price and take into account the relevant developments since the acquisition of the investments and other factors pertinent to the valuation of the investments, with reference to such rights in connection with realisation, recent third-party transactions of comparable types of instruments, and reliable indicative offers from potential buyers.

In determining fair value, the Trustee, the AIFM and Investment Advisor in many instances rely on the financial data of the entities and on estimates by the management of those entities as to the effect of future developments. The Trustee and Investment Advisor are aware, however, that the actual values of the entities could differ from the estimates made and those differences could be material both individually and overall, especially under current economic conditions.

#### 2.8 Payables

Payables are financial liabilities with fixed or determinable payments that are not quoted in an active market. Payables are recognised initially at fair value. These are subsequently measured at amortised cost using the effective interest method.

The effective interest rate is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments through the expected life of the financial liability, or, where appropriate, a shorter period, to the net carrying amount on initial recognition.

Given the nature of payables and the short time length involved between their origination and settlement, their amortised cost is considered to be the same as their fair value.

Financial liabilities are derecognised when they are extinguished - that is, when the obligation specified in the contract is discharged, cancelled or expires.

#### 2.9 Distributions from the investment portfolio and their utilisation

Distributions are received from the portfolio of investments either in cash or publicly quoted securities. In the latter case, the Investment Advisor will seek to complete the sale of such securities within a period of three months from the date of transfer at the valuation at the time of distribution, subject to market conditions and any constraints regarding the marketability of the securities received.

The application of the distribution amounts against return of cost, capital gain/loss and income is recognised as return of cost until such time when all costs have been returned at which point a realised gain is recognised on any remaining distribution amounts.

The total cash realised from distributions will:

- a) Firstly, be applied to a reserve to be held to meet anticipated drawdowns from fund interests acquired;
- b) Secondly, be applied to meet the costs and other expenses of the Unit Trust;
- c) Thirdly, if received during the three year investment period within 12 months of acquisition of the relevant investment, be available for new investment; and
- d) Fourthly, be available for distributions to unitholders.

#### 2. Summary of significant accounting policies – continued

No distributions will be made in specie save with the consent of the Investor Representative Group. This Group comprises between three and six members appointed by the Investment Advisor from among unitholders or their representatives. If an in specie distribution is made, the value of the distribution will be determined by the most recent net asset value of the relevant investment.

#### 2.10 Distributions to unitholders

No distributions have yet been made to Unitholders but at appropriate times in the future distributable amounts will be apportioned between the Investor Units and the LP units based on their respective overall commitments to the Unit Trust. The amount apportioned to the Investor Units will then be applied as follows:

Firstly, to the repayment of the total capital subscribed by A unitholders, being the aggregate amount subscribed contemporaneously by A unitholders for A units and B units.

Secondly, to the holders of B and C units in the following proportions:

- a) 85% to holders of B units and 15% to holders of C units until the B unitholders have received an amount equal to that distributed to the A unitholders;
- b) 50% to holders of B units and 50% to holders of C units until the C unitholders have received 25% of the total amount distributed to the B unitholders; and
- c) 80% to holders of B units and 20% to holders of C units.

#### 2.11 Taxation

The Unit Trust has been accepted into the UK HMRC Reporting Fund Regime and is subject to tax in Jersey at 0% as per Section 123 of Income Tax (Jersey) Law 1961. Any tax liability arising on the activity of the Unit Trust will be borne by the individual investors.

The Unit Trust currently incurs only withholding tax imposed by certain countries which is being shown as a separate item in the Statement of Comprehensive Income. The Trustee has assessed the risk of specific identifiable uncertain tax positions as low and as a result has identified no matters that require further disclosures in the financial statements.

#### 2.12 Cash and cash equivalents

Cash and cash equivalents include cash held in current accounts with Barclays Bank plc.

#### 2.13 Contributed capital

Contributed capital is classified as a financial liability due to the finite life of the Trust and provisions for contractual payments to unitholders in its constitutive documents.

#### 3. Financial risk management

The Unit Trust's activities expose it to a number of financial risks and the impact of each of these risks to the Unit Trust is described below.

#### 3. Financial risk management – continued

#### 3.1 Market risk

#### (i) Price risk

Price risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices (other than those arising from interest rate risk or currency risk) whether those changes are caused by factors specific to the individual financial instrument or its issue or factors affecting similar financial instruments traded in the market.

The Unit Trust's investments are susceptible to price risk arising from uncertainties about future values of those investments. The Investment Advisor provides the Trustee with investment recommendations which are reviewed and approved by the Trustee before the investment decision is implemented. To manage price risk the Investment Advisor, as engaged by the Trustee to do so, reviews the performance of the investment entities on an ongoing basis and is in regular contact with the management of those investment entities for business and operational matters.

In assessing potential investments, the Investment Advisor applies the following concentration limits:

- The total interest in any individual private equity fund will not comprise, at the time of acquisition, more than 15% of the net asset value of the Unit Trust (including undrawn commitments);
- No interest in an individual company, whether acquired directly or as part of a portfolio of fund or direct interests, will comprise more than 7.5% of the net asset value of the Unit Trust (including undrawn commitments).

These limits may be waived with the approval of the Investor Representative Group.

The basis of valuation for the investments is set out in note 2.7. The Trustee has prepared a sensitivity analysis that measures the estimated change to the fair value of the Unit Trust's financial instruments of either an increase or decrease in values of 10%, as used for internal reporting purposes. Applying this rate to investments at 31 December 2019 would result in an increase or decrease of USD56,439,254 (31 December 2018: USD66,335,822) assuming that other variables were unchanged.

#### (ii) Currency risk

Currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates.

The Unit Trust holds assets denominated in currencies other than US Dollars ("USD"), the functional currency of the Unit Trust. Consequently, it is exposed to currency risk since the value of the assets denominated in other currencies will fluctuate due to changes in exchange rates. The Investment Advisor takes foreign currency exposure of underlying entities into account when formulating its investment strategy and the Trustee provides the Investment Advisor with details of foreign currency bank balances on a weekly basis to enable monitoring thereof. The Trustee and Investment Advisor do not manage the Unit Trust's exposure to foreign exchange movements (both monetary and non-monetary) by entering into foreign exchange hedging transactions.

#### 3. Financial risk management – continued

#### 3.1 Market risk – continued

#### (ii) Currency risk - continued

The table below summarises the Unit Trust's exposure to currency risk. Included in the table are the Unit Trust's assets and liabilities at fair value in US Dollars, categorised by their base currencies:

2019	CAD	DKK	SEK	GBP	EUR	Total
Assets Cash and cash equivalents Financial assets at fair value through	-	407,615	-	-	7,918,547	8,326,162
profit or loss		609,609	_	49,091,306	135,455,640	185,156,555
Total assets	-	1,017,224	-	49,091,306	143,374,187	193,482,717
			_			
Liabilities						
Payables	-	-	-	(265,628)	-	(265,628)
Total net assets	-	1,017,224	-	48,825,678	143,374,187	193,217,089
2018	CAD	DKK	SEK	GBP	EUR	Total
Assets	CILD	Ditti	DEIR	GDI	DON	A Otal
Cash and cash equivalents Financial assets at fair value through	-	-	-	1,384,177	8,053,580	9,437,757
profit or loss	59,285	686,203	28,594	17,268,352	154,677,289	172,719,723
Total assets	59,285	686,203	28,594	18,652,529	162,730,869	182,157,480
Liabilities						
Payables	-	-	-	(539,474)		(539,474)
Total net assets	59,285	686,203	28,594	18,113,055	162,730,869	181,618,006

Exchange rates to US Dollars used at the year end were as follows:

	31 December 2019	31 December 2018
Canadian Dollar	1.2978	1.3626
Danish Krone	6.6543	6.5189
Swedish Krona	9.3508	8.8808
Pounds Sterling	0.7540	0.7846
Euro	0.8907	0.8732

The Trustee believes that a reasonable assessment of the potential exposure to foreign exchange rate fluctuation is plus or minus 10%, as used for internal reporting purposes. Applying this rate to net assets at the year end would result in an increase or decrease therein of USD19,321,709 (31 December 2018: USD18,161,801), assuming that other variables were unchanged. In order to mitigate as far as possible, the adverse effects of currency movements the Trustee and Investment Advisor monitor such movements on an ongoing basis.

#### 3. Financial risk management – continued

#### 3.1 Market risk – continued

#### (iii) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The vast majority of the Unit Trust's financial instruments are non-interest bearing. This is in line with the Investment Advisor's focus of investing in entities which are non-interest bearing. The Unit Trust is therefore not subject to significant amounts of risk due to fluctuations in the prevailing levels of market interest rates. Any excess cash and cash equivalents are invested at short-term market interest rates.

Sensitivity analysis pertaining to interest rate risk has not been provided in these financial statements as, in the opinion of the Trustee, amounts of interest received by the Unit Trust are immaterial in relation to its overall results for the year.

#### 3.2 Credit risk

Credit risk is the risk that a counterparty will be unable to pay amounts in full when due causing a financial loss to the Unit Trust. The Trustee considers that the Unit Trust has no significant concentration of credit risk.

The Trustee and Investment Advisor assess all counterparties, including the unitholders, before contracting with them. The main area of exposure to credit risk for the Unit Trust is that a unitholder might default on a capital call, but the Trustee considers that the credit risk of the Unit Trust is low as all of the investors are known to the Investment Advisor. Additionally, there are clauses in the Unit Trust's Prospectus that provide specific actions that can be taken in the case that a unitholder defaults from its obligation of disbursement of a call.

Financial assets exposed to credit risk include financial assets at FVTPL, receivables and bank balances as disclosed in notes 5, 6 and 7. None of these assets is past due or impaired and it is the opinion of the Trustee that the carrying amounts of these financial assets represent the Unit Trust's maximum credit risk exposure at the end of the financial year. As at 31 December 2019, the Unit Trust held cash balances with Barclays Bank plc whose credit rating is of investment grade, having a Moody's ratings of A1 (31 December 2018: Moody's ratings of A1).

#### 3.3 Liquidity risk

The liquidity risk is that the Unit Trust will encounter difficulty in meeting its financial obligations when they fall due. The financial obligations of the Unit Trust are amounts due in respect of investment transactions and accounts payable, which are payable on demand with the exception of net assets attributable to unitholders.

When capital is required to fund the purchase of investments, calls are made on the portion of the investors' units not yet paid up. As at 31 December 2019, USD150,000,000 (31 December 2018: USD200,000,000) was available to be called from unitholders, of which a maximum of USD 21,305,553 (31 December 2018: USD259,472,806) would be required to fund future capital calls of current investee entities.

HCP VI Holdings SLP has an end of life facility agreement with Nomura Corporate Funding Americas LLC to borrow an amount of up to USD5,000,000 as at 31 December 2019. Accordingly, the Trustee considers that the Unit Trust has no significant liquidity risk for the foreseeable future.

#### 3. Financial risk management – continued

#### 3.3 Liquidity risk - continued

Any borrowing shall be made and may be varied on such terms, including terms as to repayment of borrowing and discharge of guarantees and subject to the payment of such fees and the assumption of such liabilities as the Trustee in its absolute discretion may determine.

To date, borrowings of USD117,126,054 (31 December 2018: USD10,000,000) have been made by Unit Trust's subsidiary HCP VI Holdings SLP.

The investments held by the Unit Trust are mostly unquoted entities which are considered to be highly illiquid as they are not actively traded. The Trustee and Investment Advisor manage this liquidity risk by actively monitoring these underlying investments. Also, by regularly reviewing market developments the Investment Advisor can explore and evaluate all potential exit opportunities.

#### Financial assets

The analysis into maturity groupings is based on the remaining period from the end of the reporting period to the contractual maturity date or, if earlier, the expected date on which the assets will be realised.

#### Financial liabilities

The maturity grouping is based on the remaining period from the end of the reporting period to the contractual maturity date. When the counterparty has a choice of when the amount is paid, the liability is allocated to the earliest period in which the Partnership can be required pay.

#### 3. Financial risk management – continued

#### 3.4 Capital risk management

The capital of the Unit Trust is represented by the net assets attributable to the unitholders. The Trustee's objective when managing the capital is to safeguard the ability to continue as a going concern in order to provide returns for unitholders and benefits for other stakeholders and to maintain a strong capital base to support the development of the investment activities of the Unit Trust. In order to maintain or adjust the capital structure the Trustee may call unfunded commitment from or distribute funds to the unitholders.

The Trustee monitors capital on the basis of the value of net assets attributable to unitholders.

#### 4. Fair value measurement

The Unit Trust is required to classify, for disclosure purposes, fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements.

The fair value hierarchy has the following levels:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1).
- Inputs other than quoted prices included within level 1 that are observable for assets or liabilities, either directly (that is, as prices) or indirectly (that is, derived from prices) (level 2).
- Inputs for assets or liabilities that are not based on observable market data (that is, unobservable inputs) (level 3).

The level in the fair value hierarchy within which the fair value measurement is categorised in its entirety is determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety. For this purpose, the significance of an input is assessed against the fair value measurement in its entirety. If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measurement is a level 3 measurement. Assessing the significance of a particular input to the fair value measurement in its entirety requires judgement, considering factors specific to the asset or liability.

The determination of what constitutes 'observable' requires significant judgement by the Trustee and Investment Advisor who consider observable data to be market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary and provided by independent sources that are actively involved in the relevant market.

As at 31 December 2019, 100% of financial assets at FVTPL comprise investments in investee entities that have been fair valued in accordance with the policies set out in note 2.7 (c). The investee entities are not publicly traded. Prior to maturity an exit can only be made by the Unit Trust through a sale of its investment and commitment in an investee entity through a secondary market. It is the Unit Trust's objective to acquire investments by way of mature private equity interests and to subsequently realise profits on such interests over the intended realisation period of the Unit Trust of ten years or less.

As a result, the carrying values of the investee entities may be significantly different from the values ultimately realised on an exit via a secondary market sale.

All of the investee entities in the portfolio are managed by investment managers who are compensated by the respective investee entities for their services. valuation of the Unit Trust's investment in each of the investee entities.

#### 4. Fair value measurement - continued

Such compensation generally consists of a commitment / investment based management fee and a performance based incentive fee which is accounted for at an underlying investee entity level. Such compensation is reflected in the investee entities are not traded on an active market and their fair value is determined using valuation techniques. The value is primarily based on the latest available financial / capital account statement of the investee entities. The Unit Trust may make adjustments to the value based on considerations such as the underlying investments of the investee entities, the value date of the net asset value provided, cash flows since the last value date, geographical and sector exposures, market movements and the basis of accounting of the underlying investee entities.

The following table analyses within the fair value hierarchy the Unit Trust's financial assets (by class) as at 31 December:

2019	Level 1	Level 2	Level 3	Total
	USD	USD	USD	USD
Financial assets at FVTPL	-	-	564,392,543	564,392,543
2018	Level 1	Level 2	Level 3	Total
	USD	USD	USD	USD
Financial assets at FVTPL	-	_	663,358,229	663,358,229

Investments whose values are based simply on quoted market prices in active markets are classified within level 1. At 31 December 2019 and 31 December 2018, it was the opinion of the Trustee that none of the Unit Trust's investments fell into this category.

Financial instruments that trade in markets that are not considered to be active but are valued based on quoted market prices, dealer quotations or alternative pricing sources supported by observable inputs would be classified within level 2. As level 2 investments include positions that are not traded in active markets, and/or are subject to transfer restrictions, valuations are discounted to reflect illiquidity and/or non-transferability, which are generally based on available market information. At 31 December 2019 and 31 December 2018, it was the opinion of the Trustee that none of the Unit Trust's investments fell into this category.

Investments classified within level 3 have significant unobservable inputs as they trade infrequently. As observable prices are not available for these securities the Investment Advisor has used valuation techniques to derive the fair value. At 31 December 2019 and 31 December 2018, it was the opinion of the Trustee that all of the Unit Trust's investments fell into this category.

Level 3 is comprised of investee entities held by the Unit Trust that are not quoted in active markets. In determining the fair value of its investee entities, the Investment Advisor relies on valuations as reported in the latest available financial statements and / or capital account statements provided by the investee entities unless there are valid reasons why such valuations may not be the best approximation of fair value. In such cases the Investment Advisor would assign a fair value to such investments which differ from that reported by the investee entities. These differences may arise because of a number of reasons including, but not limited to:

- a) The report received from the investee entity may not be coterminous with the Unit Trust's reporting date;
- b) The report received from the investee entity may be based on principles that are not aligned with the fair value principles adopted by the Unit Trust; and
- c) The Investment Advisor of the Unit Trust may have access to other observable or unobservable data that would indicate that amendments are required to particular portfolio company investment fair values presented in the reports from the investee entity.

#### 4. Fair value measurement – continued

The Investment Advisor is responsible for monitoring the performance of the underlying investee entities and reporting such performance to the Trustee. Where the information provided by an investee entity is not considered appropriate by the Investment Advisor and Trustee, the Investment Advisor will make amendments to the net asset value obtained as above in order to recommend a carrying value that more appropriately reflects the fair value at the Unit Trust's reporting date. The Trustee receives such recommendations from the Investment Advisor and is responsible for approving the final valuation of the investee entities.

The following tables present those investee entities whose fair values are recognised in whole or in part using valuation techniques (based on assumptions that are not supported by prices or other inputs from observable current market transactions). The unobservable inputs which significantly impact the fair value have been presented below.

The NAV reflects input, being the values advised by the investee entities, and the fair value adjustments also reflect the input, being the adjustments made by the Trustee on advice from the Investment Advisor.

	Fair value at 31 December 2019	Valuation technique	Unobservable inputs	Weighted average input	Reasonable possible shift +/- (absolute value)	Change in valuation +/-
Private equity	564,392,543	Adjusted NAV	NAV	N/A	10%	56,439,254
	,		Fair value adjustments	N/A	N/A	

The changes in investments measured at fair value for which the Unit Trust has used level 3 inputs to determine fair value as at 31 December is as follows:

2019	2018
USD	USD
663,358,229	132,674,996
335,787,312	533,299,092
(474,581,225)	(209,078,604)
39,828,227	206,462,745
564,392,543	663,358,229
	USD 663,358,229 335,787,312 (474,581,225) 39,828,227

There were no transfers between levels during the year ended 31 December 2019 and for the year ended 31 December 2018. Any such transfers in future will be deemed to occur at the beginning of the relevant reporting year.

	USD	USD
Capital called	350,010,000	300,010,000
Accumulated excess of income over expenses	249,156,079	222,536,386
Net assets attributable to unitholders	599,166,079	522,546,386

#### 10. Related party transactions

#### Unitholding of the Investment Advisor personnel

The partners and employees of the Investment Advisor held the following units beneficially.

	2019	2018
C units	10,000	10,000
LP units	3,500,000	3,500,000
	3,510,000	3,510,000

In accordance with the Prospectus and Declaration of Trust, C units were issued in full at the first issue date to Hollyport Connected Persons. There have been no changes in these unitholdings up to the date of signing these financial statements.

#### 10. Related party transactions – continued

#### Investment Advisor - continued

Under the terms of the Investment Advisor Agreements, the Investment Advisor is entitled to an annual advisory fee calculated as 1.5% of total Commitments for Investor Units during the Investment Period. Thereafter the fee will reduce to 1.5% of the investor net asset value of the Unit Trust at the preceding year, subject to such fee not exceeding 1.5% of total Commitments in any year.

During the year to 31 December 2019 advisory fees expenses incurred to Hollyport Capital LLP totalled USD1,994,700 (31 December 2018: USD1,955,325) on the A and B units, none of which was outstanding at 31 December 2019 (31 December 2018: USDnil). The fee is payable quarterly in advance and USD492,113 (31 December 2018: USD505,237) was paid in advance for the first quarter of 2020.

The Unit Trust also advanced USD1,369,763 (31 December 2018: USD1,356,638) advisory fees for the first quarter of 2020 in respect of the Limited Partnership.

At the year end USD16,424,025 (31 December 2018: USD10,958,850) was reimbursable from the Limited Partnership in respect of advisory fees paid on its behalf.

#### Administrator

Sanne Fund Administration Limited was appointed as Administrator to the Unit Trust with effect from 31 March 2017. Oliver Morris and Ashley Vardon are directors of Sanne Fund Administration Limited. Both are employees and minority shareholders of Sanne Group plc.

The expenses incurred to Sanne affiliated entities for the year amounted to USD303,294 (31 December 2018: USD263,556) of which USDnil was outstanding at the year end (31 December 2018: USDnil).

#### **Trustee**

Hollyport Secondary Opportunities Management Limited was appointed as Trustee of the Unit Trust with affect from 31 March 2017. Oliver Morris and Ashley Vardon are Directors of Hollyport Secondary Opportunities Management Limited.

The expenses incurred to Sanne affiliated Directors for the year amounted to USD5,146 (31 December 2018: USD5,000) of which USD nil was outstanding at the year end (31 December 2018: USDnil).

David Hall was appointed as a Non-Executive Director of Hollyport Secondary Opportunities Management Limited. The fee payable to David Hall for the year amounted to USD25,648 (31 December 2018: USD26,777) of which USD nil was payable at the year end (31 December 2018: USDnil).

#### LP Units

In accordance with the Prospectus and Declaration of Trust, the Unit Trust is responsible for the expenses of Hollyport Secondary Opportunities VI LP.

During the year the Unit Trust incurred audit expenses amounting to USD9,897 (31 December 2018: USD9,135) and administration fees of USD47,476 (31 December 2018: USD40,551) on behalf of Hollyport Secondary Opportunities VI LP.

#### 10. Related party transactions – continued

#### Hollyport VI CC Feeder L.P.

The Unit Trust paid expenses on behalf of the Hollyport VI CC Feeder LP in the amount of USD 38,705 (31 December 2018: USD33,247). At the year end USD103,694 (31 December 2018: USD 63,049) was receivable from Hollyport VI CC Feeder LP in respect of expenses paid on its behalf.

#### 11. Ultimate controlling party

It is the opinion of the Trustee that no ultimate controlling party exists.

#### 12. Subsequent events

The Trustee has evaluated that there were no subsequent events identified which require adjustment or disclosure in these financial statements.
