## **Announcement of CVA Approval by Landlords and other Creditors**

**June 19, 2020**

Travelodge Hotels Limited (**THL**), an indirect subsidiary of Thame and London Limited (together with its direct and indirect subsidiaries, the **Group**), announces today that the company voluntary arrangement (**CVA**) launched on June 3, 2020 has been approved by THL's creditors and landlords on the terms previously disclosed in the announcement of June 3, 2020 and as further updated on June 16, 2020.

The successful vote will enable Travelodge to navigate the short-term challenges facing the business as a result of the COVID-19 pandemic. The Directors of Travelodge would like to thank its creditors for their support during this period and look forward to re-opening and welcoming guests back to its hotels in the near future.

### **Overview of the CVA terms**

The CVA involves a combination of: the temporary reduction of rent in respect of certain leases, a temporary move from quarterly to monthly rents in respect of certain leases, the compromise of certain other specific unsecured liabilities of THL, the waiver of certain termination rights under certain agreements for lease and the provision of mitigating elements to certain landlords (including options for lease extensions and a mechanism to participate in additional cash rental payments, should THL meet certain performance thresholds).

The CVA does not compromise the claims of other creditors, including, without limitation, secured creditors (including lenders under the Group's revolving credit facility and holders of TVL Finance plc's senior secured floating rate notes due 2025), customers, trade creditors and employees. Such other creditors are not impacted by the CVA, except that any potential termination rights arising under unsecured creditor contracts by reason of the launch and/or approval of the CVA were cured or waived upon approval of the CVA. Lenders under our revolving credit facility and holders of our senior secured floating rate notes due 2025 have previously waived certain defaults that otherwise may have been triggered by THL entering into the CVA.
