Erratum in funds under management (FUM) disclosed in the Group pre-close trading update**26 September 2023**

In the trading update released on Friday, 22 September 2023, the UK Wealth & Investment FUM as at 31 August 2023, was erroneously disclosed as £42 293 million instead of **£40 293 million**. Accordingly, the Group FUM decreased by 2.0% since 31 March 2023 to **£59 357 million** not the previously disclosed increase of 1.3%. The net inflows numbers and associated commentary were accurately reported.

The following announcement commentary regarding FUM performance is updated as follows, and is substantially unchanged, saved for the change described above.

- The Wealth & Investment business funds under management (FUM) decreased by 2.0% to £59.4 billion, an increase of 0.6% in neutral currency. The positive net inflows of £325 million from discretionary FUM reflect the uncertain economic backdrop which is characterised by the cost of living crisis and higher interest rates which negatively impacted discretionary inflows from our UK business. In the Southern African business, net discretionary inflows of R7.5 billion were partly offset by net outflows of R1.9 billion in non-discretionary FUM.
