Broadgate REIT Limited

Directors' Report for the Year Ended 31 March 2024

The directors present their annual report on the affairs of Broadgate REIT Limited ("the Company") and its subsidiaries (together "the Group"), together with the audited consolidated financial statements for the year ended 31 March 2024.

Incorporation
Broadgate REIT Limited is incorporated in Jersey under the Companies (Jersey) Law 1991. On 24 March 2015 the Company's shares were admitted to the official list of the Channel Islands Securities Exchange Authority Limited ("CISE") which was rebranded in March 2017 as The International Stock Exchange ("TISE").

Broadgate REIT Limited is resident in the United Kingdom and is qualified as a UK real estate investment trust ("REIT").

Principal activity
The principal activity of the Group and its subsidiaries is that of property investment in the United Kingdom.

Directors of the group
The directors, who held office during the year, and up to the day of signing the financial statements were as follows:

N Cahoon

D Lockyer

H Shah

D Richards

G Noblett

None of the directors hold any direct personal interest in the shares of the Company. Each director is, however, connected with one or other of the two shareholders of the Company for the purposes of the listing rules of the TISE and is therefore considered to be interested in the shares held by such shareholder.

Statement of directors' responsibilities
The directors are responsible for preparing the financial statements in accordance with applicable Jersey law and International Financial Reporting Standards "IFRS" as issued by the IASB, and the Company financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards), comprising FRS 101 “Reduced Disclosure Framework”, and applicable law.

The directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the company and of the profit or loss of the company for that period. In preparing the financial statements, the directors are responsible for:

- selecting suitable accounting policies and then applying them consistently;
- stating whether applicable IFRSs as issued by the International Accounting Standards Board (IASB) have been followed for the group financial statements and United Kingdom Accounting Standards, comprising FRS 101 have been followed for the company financial statements, subject to any material departures disclosed and explained in the financial statements;
- making judgements and accounting estimates that are reasonable and prudent; and
- preparing the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business.

Statement of directors' responsibilities (continued)
The directors confirm that they have complied with the above requirements in preparing the financial statements.

The directors are responsible for ensuring that the financial statements comply with The Companies (Jersey) Law, 1991 and safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities. So far as the directors are aware, there is no relevant audit information of which the Company’s auditors are unaware, and each director has taken all the steps that they ought to have taken as a director in order to make themselves aware of any relevant audit information and to establish that the Company’s auditors are aware of that information.

The directors are also responsible for keeping adequate accounting records that are sufficient to show and explain the company’s transactions and disclose with reasonable accuracy at any time the financial position of the company.

Directors' confirmations
In the case of each director in office at the date the directors’ report is approved:
• so far as the director is aware, there is no relevant audit information of which the Company’s auditors are unaware; and
• they have taken all the steps that they ought to have taken as a director in order to make themselves aware of any relevant audit information and to establish that the Company’s auditors are aware of that information.

Results for the year
The Group made a loss of £191m (2023: £723m). The loss is primarily due to downward property valuations totalling £264m (2023: £808m). Group revenue for the year to 31 March 2024 was £265m, which is stable compared to £261m in the prior year.

Net assets have decreased by £279m, in line with the revaluation loss in the year.

The Company's net assets decreased to £1,054m (2023: restated value of £1,386m). There is a prior year restatement in relation to investment impairment, refer to Note 2.

Dividends
The Company declared dividends in respect of the year ended 31 March 2024 totalling £91m (2023: £97m). Property income dividends (PIDs) are paid, as required by REIT legislation. All dividends were settled in cash.

Risk Management
The Directors consider that the key risks of this Group are the performance of the properties and tenant default. These risks are mitigated by a continually updated and refreshed Broadgate Campus business plan, including development activities, to ensure an appropriate mix of high quality space that is attractive for tenants and a preference for tenants with strong covenants on long leases.

The macroeconomic and geopolitical challenges from the previous period have persisted into the current financial year, inevitably affecting the business through increased interest rates, heightened inflation, and resulting pressures on property valuations. Encouragingly, the economy has been more resilient than expected alongside recent declines in inflation and resulting expectations for lower interest rates, albeit the macroeconomic outlook remains uncertain. The directors have maintained oversight over our response to these external challenges, implementing measures to mitigate the impact on the business.

See note 16 for the principal risks of the Group.

Environmental matters
The Group recognises the importance of its environmental responsibilities, monitors its impact on the environment, and designs and implements policies to reduce any damage that might be caused by the Group's activities. The Group operates in accordance with best practice policies and initiatives designed to minimise the Group's impact on the environment including the safe disposal of manufacturing waste, recycling and reducing energy consumption.

In preparing the financial statements, the impact of climate change has been considered. Whilst noting the Group's commitment to sustainability, there has not been a material impact on the financial reporting judgements and estimates arising from our considerations, which include physical climate and transitional risk assessments conducted by the Group. As part of the valuation process, the Group has discussed the impact of climate change with the external valuers who value the investment and development properties of the Group.

Subsequent events
Details of subsequent events since the Balance Sheet date, if any, are contained in note 19.

Going concern
The Group finances its operations by a mixture of equity, debt and loans provided by shareholders. Whilst the Group is in a net current liability position of £1,225m, this is principally as a result of shareholder loans which have no predetermined repayment date and are therefore treated as current liabilities. The directors have received letters of support from the shareholders of Broadgate REIT Limited confirming that they do not intend to call for repayment of these loans within twelve months of the signing of these financial statements. In preparing these financial statements the directors have considered the headroom on debt service covenants and reviewed the forecast cash flows of the Group.

As a consequence of this the Directors feel that the Group and the Company are well placed to manage its financing and other business risks satisfactorily despite the uncertain economic climate, and have a reasonable expectation that the Group and Company have adequate resources to continue in operation for at least 12 months from the signing date of these financial statements. Accordingly, they believe the going concern basis is an appropriate one.

Disclosure of information to the auditors
Each director has taken steps that they ought to have taken as a director in order to make themselves aware of any relevant audit information and to establish that the Company's auditors' are aware of that information. The directors confirm that there is no relevant information that they know of and of which they know the auditors' are unaware.

Reappointment of auditors
The auditors, PricewaterhouseCoopers LLP, have indicated their willingness to continue in office and a resolution concerning their re-appointment will be proposed at the next Board Meeting.

Secretary
The secretary of the Company during the year ended 31 March 2024 and subsequently was British Land Company Secretarial Limited.

Independent auditors' report to the members of Broadgate REIT Limited

Report on the audit of the financial statements

Opinion

In our opinion:

- Broadgate REIT Limited's group financial statements and company financial statements (the "financial statements") give a true and fair view of the state of the group's and of the company's affairs as at 31 March 2024 and of the group's loss and the group's cash flows for the year then ended;
- the group financial statements have been properly prepared in accordance with International Financial Reporting Standards (IFRSs) as issued by the International Accounting Standards Board (IASB);
- the company financial statements have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards, including FRS 101 "Reduced Disclosure Framework", and applicable law); and
- the financial statements have been prepared in accordance with the requirements of the Companies (Jersey) Law 1991.

We have audited the financial statements, included within the Annual Report and Consolidated Financial Statements (the "Annual Report"), which comprise: the Consolidated and Company Statements of Financial Position as at 31 March 2024; the Consolidated Income Statement, the Consolidated Statement of Comprehensive Income, the Consolidated and Company Statements of Changes in Equity, and the Consolidated Statement of Cash Flows for the year then ended; and the notes to the financial statements, comprising material accounting policy information and other explanatory information.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) ("ISAs (UK)") and applicable law. Our responsibilities under ISAs (UK) are further described in the Auditors' responsibilities for the audit of the financial statements section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We remained independent of the group in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, which includes the FRC's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements.

Our audit approach

Overview

Audit scope

- We tailored the scope of our audit to ensure that we performed enough work to be able to give an opinion on the financial statements as a whole. The group financial statements are prepared on a consolidated basis, and the audit team carries out an audit over the consolidated group balances in support of the group audit opinion.

Key audit matters

- Valuation of investment and development properties (group)
- Taxation (group)

- Valuation of investments in subsidiaries (company)

Materiality

- Overall group materiality: £43,940,000 (2023: £43,680,000) based on 1% of total assets.
- Overall company materiality: £24,550,000 (2023: £23,600,000) based on 1% of total assets.
- Performance materiality: £32,955,000 (2023: £32,760,000) (group) and £18,412,500 (2023: £17,700,000) (company).

The scope of our audit

As part of designing our audit, we determined materiality and assessed the risks of material misstatement in the financial statements.

Key audit matters

Key audit matters are those matters that, in the auditors' professional judgement, were of most significance in the audit of the financial statements of the current period and include the most significant assessed risks of material misstatement (whether or not due to fraud) identified by the auditors, including those which had the greatest effect on: the overall audit strategy; the allocation of resources in the audit; and directing the efforts of the engagement team. These matters, and any comments we make on the results of our procedures thereon, were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

This is not a complete list of all risks identified by our audit.

The key audit matters below are consistent with last year.

Key audit matter	How our audit addressed the key audit matter
Valuation of investment and development properties (group) Refer to Notes to the financial statements – Note 2 (Accounting policies), Note 3 (Critical accounting judgements and key sources of estimation uncertainty) and Note 9 (Investment properties). The group's investment property portfolio includes mainly offices and some retail properties in London. The total investment property portfolio valuation for the group was £4,132 million as at 31 March 2024 (2023: £4,142 million). The valuations were carried out by third party valuers Cushman & Wakefield (the "Valuers"). The Valuers were engaged by the directors and performed their work in accordance with the Royal Institute of Chartered Surveyors ('RICS') Valuation – Global Standards and IFRS 13 (Fair Value Measurement). In determining the valuation of a property, the Valuers take into account property-specific information such as the current tenancy agreements and rental income. They apply assumptions for yields and estimated market rent, which are influenced by prevailing market yields and comparable market transactions, to arrive at the final valuation. For developments, the residual appraisal method is used, by estimating the fair value of the completed project using a capitalisation method less estimated costs to completion and a risk premium. The valuation of the group's property portfolio was identified as a key audit matter given the valuation is inherently subjective due to, among other factors, the individual nature of each property, its location and the expected future rental streams for that particular property.	Given the inherent subjectivity involved in the valuation of the property portfolio, and therefore the need for deep market knowledge when determining the most appropriate assumptions and the technicalities of valuation methodology, we engaged our internal valuation experts to assist us in our audit of this matter. **Assessing the Valuers' expertise and objectivity** We assessed the Valuers' qualifications and expertise and read their terms of engagement with the group to determine whether there were any matters that might have affected their objectivity or may have imposed scope limitations upon their work. We also considered fees and other contractual arrangements that might exist between the group and the Valuers. We found no evidence to suggest that the objectivity of the Valuers was compromised. **Assumptions and estimates used by the Valuers** We read the valuation reports for all the properties and confirmed that the valuation approach for each was in accordance with RICS Valuation - Global Standards. We obtained details of each property held by the group and set an expected range for yield and capital value movement, determined by reference to published benchmarks and using our experience and knowledge of the market. We compared the investment yields used by the Valuers with the range of expected yields and the year on year capital movement to our expected range. We also considered the reasonableness of other assumptions that were not so

The significance of the estimates and judgements involved, coupled with the fact that only a small percentage difference in individual property valuations, when aggregated, could result in a material misstatement, warranted specific audit focus in this area.	readily comparable with published benchmarks, such as estimated rental value. For developments valued using the residual valuation method, we obtained the development appraisal and assessed the reasonableness of the Valuers' key assumptions. This included comparing the yield to comparable market benchmarks, comparing the costs to complete estimates to development plans and contracts, and considering the reasonableness of other assumptions that are not so readily comparable with published benchmarks, such as profit on cost. We held discussions with the Valuers and challenged their approach to the valuations, the key assumptions and their rationale behind the more significant valuation movements during the year. Where assumptions were outside the expected range or showed unexpected movements based on our knowledge, we undertook further investigations, held further discussions with the Valuers and obtained evidence to support explanations received. We also challenged the Valuers as to the extent to which recent market transactions and expected rental values which they made use of in deriving their valuations took into account the impact of climate change. The valuation commentaries provided by the Valuers and supporting evidence, enabled us to consider the property specific factors that may have had an impact on value, including recent comparable transactions where appropriate. We concluded that the assumptions used in the valuations were supportable in light of available and comparable market evidence. **Information and standing data** We performed testing on the standing data in the group's information systems concerning the valuation process. We carried out procedures, on a sample basis, to satisfy ourselves of the accuracy of the property information supplied to the Valuers by management. Where applicable, we agreed tenancy information to supporting evidence on a sample basis. For developments, we confirmed that the supporting information for construction contracts and budgets, which was supplied to the Valuers was also consistent with the group's records for example by inspecting original construction contracts. Capitalised expenditure was tested on a sample basis to invoices, and budgeted costs to complete compared with supporting evidence. We agreed the amounts per the valuation reports to the accounting records and the financial statements, including the relevant note disclosures. **Overall outcome** We have no matters to report in respect of this work.
Taxation (group) Refer to the Notes to the financial statements - Note 3 (Critical accounting judgements and key sources of estimation uncertainty) and Note 8 (Tax on loss). The REIT regime grants companies tax-exempt status provided they meet the rules within the regime. The rules are complex and the tax exempt status has a significant impact on the financial statements. The complexity of the rules creates a risk of an inadvertent breach and the group's profit becoming subject to tax. The group's status as a REIT underpins its business model and shareholder returns. For this reason, it warrants special audit focus. The obligations of the REIT regime include requirements	We confirmed our understanding of management's approach to ensuring compliance with the REIT regime rules and we involved our internal taxation specialists to verify the accuracy of the application of the rules. We obtained management's calculations and supporting documentation, verified the inputs to their calculations and re-performed the group's annual REIT compliance tests. We used our knowledge of tax circumstances and, by reading relevant correspondence between the group and HMRC and the group's external tax advisors, we are satisfied that the assumptions and judgements used by the

to comply with balance of business, dividend and income cover tests.	group in determining the tax provisions are reasonable. We have no issues to report in respect of this work.
Valuation of investments in subsidiaries (company) Refer to the Notes to the financial statements – Note 11 (Investments). The company has investments in subsidiaries of £940 million (2023: £1,080 million). The company's accounting policy for investments is to hold them at the lower of cost less any impairment and the underlying net asset value of the investment. Investments in subsidiaries are assessed for impairment in line with IAS 36. Given the inherent judgement and complexity in assessing the carrying value of a subsidiary, this was identified as a key audit matter. The primary determinant and key judgement within the fair value of each subsidiary is the value of the investment property held by each investee. As such it was over this area that we applied the most focus and audit effort.	We obtained the management's impairment assessment for the recoverability of investments in subsidiaries as at 31 March 2024. We assessed the accounting policy for investments in subsidiaries to ensure it was compliant with FRS 101 "Reduced Disclosure Framework". We verified that the methodology used by the directors in arriving at the carrying value of each subsidiary, was compliant with FRS 101. We identified the key estimate within the assessment of impairment of the investments in subsidiaries to be the underlying valuation of investment property held by the subsidiaries. For details of our procedures over investment property valuations please refer to the related group key audit matter above. We have no issues to report in respect of this work.

How we tailored the audit scope

We tailored the scope of our audit to ensure that we performed enough work to be able to give an opinion on the financial statements as a whole, taking into account the structure of the group and the company, the accounting processes and controls, and the industry in which they operate.

The group's properties are spread across a number of subsidiaries with the group financial statements being a consolidation of these entities. All of the work was carried out by the group audit team to ensure sufficient coverage and appropriate audit evidence for our opinion on the group financial statements as a whole.

The impact of climate risk on our audit

In planning our audit, we made enquiries with management to understand the extent of the potential impact of climate change risk on the financial statements. Our evaluation of this conclusion included challenging key judgements and estimates in areas where we considered that there was greatest potential for climate change impact. We particularly considered how climate change risks would impact the assumptions made in the valuation of investment properties as explained in our key audit matter above. We also considered the consistency of the disclosures in relation to climate change made within the Annual Report, the financial statements and the knowledge obtained from our audit. We assessed the consideration of the cost of delivering the group's climate change and sustainability strategy within the going concern forecasts.

Materiality

The scope of our audit was influenced by our application of materiality. We set certain quantitative thresholds for materiality. These, together with qualitative considerations, helped us to determine the scope of our audit and the nature, timing and extent of our audit procedures on the individual financial statement line items and disclosures and in evaluating the effect of misstatements, both individually and in aggregate on the financial statements as a whole.

Based on our professional judgement, we determined materiality for the financial statements as a whole as follows:

	Financial statements - group	**Financial statements - company**
Overall materiality	£43,940,000 (2023: £43,680,000).	£24,550,000 (2023: £23,600,000).
How we determined it	1% of total assets	1% of total assets
Rationale for benchmark applied	A key determinant of the group's value is direct property investments. Due to this, the key area of focus in the audit is the valuation of investment and development properties. On this basis, and consistent with the prior year, we set an overall group materiality level based on total assets.	The company's main activity is the investment in subsidiaries. Given this, we set an overall company materiality level based on total assets.

We use performance materiality to reduce to an appropriately low level the probability that the aggregate of uncorrected and undetected misstatements exceeds overall materiality. Specifically, we use performance materiality in determining the scope of our audit and the nature and extent of our testing of account balances, classes of transactions and disclosures, for example in determining sample sizes. Our performance materiality was 75% (2023: 75%) of overall materiality, amounting to £32,955,000 (2023: £32,760,000) for the group financial statements and £18,412,500 (2023: £17,700,000) for the company financial statements.

In determining the performance materiality, we considered a number of factors - the history of misstatements, risk assessment and aggregation risk and the effectiveness of controls - and concluded that an amount at the upper end of our normal range was appropriate.

We agreed with those charged with governance that we would report to them misstatements identified during our audit above £2,197,000 (group audit) (2023: £2,184,000) and £1,227,500 (company audit) (2023: £1,180,000) as well as misstatements below those amounts that, in our view, warranted reporting for qualitative reasons.

Conclusions relating to going concern

Our evaluation of the directors' assessment of the group's and the company's ability to continue to adopt the going concern basis of accounting included:

- Corroborated key assumptions (e.g. liquidity forecasts and financing arrangements) to underlying documentation and ensured this was consistent with out audit work in these areas;
- Considered management's forecasting accuracy by comparing how the forecasts made at the half year compare to the actual performance in the second half of the year;
- Understood and assessed the appropriateness of the key assumptions used both in the base case and in the severe but plausible downside scenario, including assessing whether we considered the downside sensitivities to be appropriately severe;
- Tested the integrity of the underlying formulas and calculations within the going concern and cash flow models;
- Considered the appropriateness of the mitigating actions available to management in the event of the downside scenario materialising. Specifically, we focused on whether these actions are within the group's control and are achievable; and
- Reviewed the disclosures provided relating to the going concern basis of preparation and found that these provided an explanation of the directors' assessment that was consistent with the evidence we obtained.

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the group's and the company's ability to continue as a going concern for a period of at least twelve months from when the financial statements are authorised for issue.

In auditing the financial statements, we have concluded that the directors' use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

However, because not all future events or conditions can be predicted, this conclusion is not a guarantee as to the group's and the company's ability to continue as a going concern.

Our responsibilities and the responsibilities of the directors with respect to going concern are described in the relevant sections of this report.

Reporting on other information

The other information comprises all of the information in the Annual Report other than the financial statements and our auditors' report thereon. The directors are responsible for the other information. Our opinion on the financial statements does not cover the other information and, accordingly, we do not express an audit opinion or any form of assurance thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If we identify an apparent material inconsistency or material misstatement, we are required to perform procedures to conclude whether there is a material misstatement of the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report based on these responsibilities.

Responsibilities for the financial statements and the audit

Responsibilities of the directors for the financial statements

As explained more fully in the Statement of directors' responsibilities, the directors are responsible for the preparation of the financial statements in accordance with the applicable framework and for being satisfied that they give a true and fair view. The directors are also responsible for such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the group's and the company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the group or the company or to cease operations, or have no realistic alternative but to do so.

Auditors' responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Irregularities, including fraud, are instances of non-compliance with laws and regulations. We design procedures in line with our responsibilities, outlined above, to detect material misstatements in respect of irregularities, including fraud. The extent to which our procedures are capable of detecting irregularities, including fraud, is detailed below.

Based on our understanding of the group and industry, we identified that the principal risks of non-compliance with laws and regulations related to compliance with the Real Estate Investment Trust (REIT) status section 1158 of the Corporation Tax Act 2010 and the Jersey Financial Services Commission, and we considered the extent to which non-compliance might have a material effect on the financial statements. We also considered those laws and regulations that have a direct impact on the financial statements such as Companies (Jersey) Law 1991. We evaluated management's incentives and opportunities for fraudulent manipulation of the financial statements (including the risk of override of controls), and determined that the principal risks were related to posting of inappropriate journal entries to increase revenue, management bias in accounting estimates and judgemental areas of the financial statements such as the valuation of investment and development properties (see related key audit matters). Audit procedures performed by the engagement team included:

- Discussions with management and internal audit, including consideration of known or suspected instances of non-compliance with laws and regulations and fraud, and review of the reports made by management and internal audit
- Understanding of management's internal controls designed to prevent and detect irregularities
- Reviewing the group's and company's litigation register in so far as it related to non-compliance with laws and regulations and fraud
- Reviewing relevant meeting minutes
- Review of tax compliance with the involvement of our tax specialists in the audit
- Designing audit procedures to incorporate unpredictability around the nature, timing or extent of our testing
- Challenging assumptions and judgements made by management in their significant areas of estimation including procedures relating to the valuation of investment properties
- Identifying and testing journal entries, in particular any journal entries posted with unusual account combinations, post close entries and posted by unexpected users.

There are inherent limitations in the audit procedures described above. We are less likely to become aware of instances of non-compliance with laws and regulations that are not closely related to events and transactions reflected in the financial statements. Also, the risk of not detecting a material misstatement due to fraud is higher than the risk of not detecting one resulting from error, as fraud may involve deliberate concealment by, for example, forgery or intentional misrepresentations, or through collusion.

Our audit testing might include testing complete populations of certain transactions and balances, possibly using data auditing techniques. However, it typically involves selecting a limited number of items for testing, rather than testing complete populations. We will often seek to target particular items for testing based on their size or risk characteristics. In other cases, we will use audit sampling to enable us to draw a conclusion about the population from which the sample is selected.

A further description of our responsibilities for the audit of the financial statements is located on the FRC's website at: www.frc.org.uk/auditorsresponsibilities. This description forms part of our auditors' report. In our engagement letter, we also agreed to describe our audit approach, including communicating key audit matters.

Use of this report

This report, including the opinions, has been prepared for and only for the company's members as a body in accordance with Article 113A of the Companies (Jersey) Law 1991 and for no other purpose. We do not, in giving these opinions, accept or assume responsibility for any other purpose or to any other person to whom this report is shown or into whose hands it may come save where expressly agreed by our prior consent in writing.

Other required reporting

Companies (Jersey) Law 1991 exception reporting

Under the Companies (Jersey) Law 1991 we are required to report to you if, in our opinion:

- we have not obtained all the information and explanations we require for our audit; or
- proper accounting records have not been kept by the company, or proper returns adequate for our audit have not been received from branches not visited by us; or
- the company financial statements are not in agreement with the accounting records and returns.

We have no exceptions to report arising from this responsibility.

1 General information

The Company is a public limited company limited by share capital. The Company is incorporated and domiciled in Jersey under the Companies (Jersey) Law 1991. The address of its registered office is 26 New Street, St Helier, Jersey, JE1 1BD.

2 Accounting policies

Statement of compliance

The Group financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRSs") as issued by the International Accounting Standards Board ("IASB"). The Company financial statements have been prepared in accordance with Financial Reporting Standard 101 Reduced Disclosure Framework ("FRS 101").

Summary of accounting policies

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

Basis of preparation

The Group financial statements have been prepared in accordance with the applicable reporting framework as issued by IASB, and Companies (Jersey) Law 1991.

The Group and Company financial statements have been prepared on a going concern basis under the historical cost convention, modified to include the revaluation of investment properties, owner-occupied properties and derivative financial instruments. Historical cost is generally based on the fair value of the consideration given in exchange for the assets.

The Group consolidated financial statements include the accounts of Broadgate REIT Limited (Company) and all subsidiaries. All intra-Group transactions, balances, income and expenses are eliminated on consolidation.

Company financial statements

The Company financial statements have been prepared in accordance with Financial Reporting Standard 101 Reduced Disclosure Framework (“FRS 101”) as issued by the Financial Reporting Council.

The Company continues to make amendments where necessary in order to comply with Companies (Jersey) Law and has set out below where advantage of the FRS 101 disclosure exemptions has been taken.

The Company has taken advantage of the following disclosure exemptions under FRS 101:

(a) The requirements of IAS 1 'Presentation of Financial Statements' to provide a Statement of Cash flows for the year;

(b) The requirements of IAS 1 to provide a statement of compliance with IFRS;

(c) The requirements of IAS 1 to disclose information on the management of capital;

(d) The requirements of paragraphs 30 and 31 of IAS 8 'Accounting Policies, Changes in Accounting Estimates and Errors' to disclose new IFRS's that have been issued but are not yet effective;

2 Accounting policies (continued)

(e) The requirements in IAS 24 Related Party Disclosures to disclose related party transactions entered into between two or more members of a group, provided that any subsidiary which is a party to the transaction is wholly owned by such a member;

(f) The requirements of paragraph 17 of IAS 24 to disclose key management personnel compensation;

(g) The requirements of IFRS 7 'Financial Instruments: Disclosures' to disclose financial instruments; and

(h) The requirements of paragraphs 91-99 of IFRS 13 'Fair Value Measurement' to disclose information of fair value valuation techniques and inputs;

(i) The requirements of IAS 1 to provide a Balance Sheet at the beginning of the year in the event of a prior year adjustment.

The Company has taken advantage of the exemption under section 105, paragraph (11) of Companies (Jersey) Law 1991, to prepare an individual profit and loss account where Group accounts are prepared.

Restatement of error in a prior period

The Company's Statement of Financial Position, Statement of Changes in Equity and result for the year ended 31 March 2023 has been restated due to an error in the Impairment in Investment in Subsidiary.

The restatement affects the following balances:

• In the Company Statement of Financial Position, the Investment in subsidiary was reported as £927m. The restated number is £1,080m, which is an increase of £153m.

• Loss after tax was reported as £1,075m. Due to the reduction in impairment in investment of £153m, from £1,077m to £924m, the restated number is £922m.

• In the Company Statement of Changes in Equity, accumulates losses were reported as £217m. The restated figure is £64m, an increase of £153m.

Also refer to Note 11 Investments which has been restated.

Adoption of new and revised standards

A number of new standards and amendments to standards and interpretations have been issued for the current accounting period. The Group has applied the following new standards and amendments to the financial statements the first time for year ended 31 March 2024: IFRS 17 'Insurance Contracts', amendments to IAS 8 impacting the definition of accounting estimates, Pillar Two model rules and associated IAS 12 amendments, amendments to IAS 12 impacting deferred tax related to assets and liabilities arising from a single transaction, and amendments to IAS 1 and IFRS Practice Statement 2 impacting the disclosure of accounting policies. The new standards and amendments listed above did not have any impact on amounts recognised in prior years and are not expected to materially affect current and future years.

The Group has assessed the impact of the Pillar Two tax legislation (effective 1 January 2024). The Group is not expected to meet the minimum thresholds for the legislation to apply.

The following standards and interpretations which have been issued but are not yet effective include IAS 1 on the classification of liabilities and non-current liabilities with covenants, IFRS 16 'Leases' on sale and leaseback arrangements, and limited scope amendments to both IFRS 10 'Consolidated Financial Statements' and IAS 28 'Investments in Associates and Joint Ventures' in respect of sale or contribution of assets between an investor and its associates or joint ventures. These amendments to standards that are not yet effective are not expected to have a material impact on the Group's results.

2 Accounting policies (continued)

Going concern
The Group finances its operations by a mixture of equity, debt and loans provided by shareholders. Whilst the Group is in a net current liability position, this is principally as a result of shareholder loans which have no predetermined repayment date and are therefore treated as current liabilities. The directors have received letters of support from the shareholders of Broadgate REIT Limited confirming that they do not intend to call for repayment of these loans within twelve months of the signing of these financial statements. In preparing these financial statements the directors have considered the headroom on debt service covenants and reviewed the forecast cash flows of the Group.

As a consequence of this the Directors feel that the Group and Company are well placed to manage its financing and other business risks satisfactorily despite the uncertain economic climate, and have a reasonable expectation that the Group and Company has adequate resources to continue in operation for at least 12 months from the signing date of these financial statements. Accordingly, they believe the going concern basis is an appropriate one.

Revenue recognition
Revenue comprises rental income, surrender premia and service charge income.

Rental income and surrender premia are recognised in accordance with IFRS 16 Leases.

For leases where a single payment is received to cover both rent and service charge, the service charge component is separated out and reported as service charge income.

Rental income, including fixed rental uplifts, from investment property leased out under an operating lease is recognised as revenue on a straight-line basis over the lease term. Lease incentives, such as rent-free periods and cash contributions to tenant fit-out, are recognised on the same straight-line basis being an integral part of the net consideration for the use of the investment property. Any rent adjustments based on open market estimated rental values ("ERVs") are recognised, based on management estimates, from the rent review date in relation to unsettled rent reviews. Contingent rents, being those lease payments that are not fixed at the inception of the lease, including for example turnover rents, are recognised in the period in which they are earned.

Lease modifications are defined as a change in the scope of a lease, or the consideration of a lease, that was not part of the original terms and conditions of the lease. Modifications to operating leases the Group holds as a lessor are accounted for from the effective date of the modification. Modifications take into account any prepaid or accrued lease payments relating to the original lease as part of the lease payments for the new lease. The revised remaining consideration under the modified lease is then recognised in rental income on a straight-line basis over the remaining lease term.

Concessions granted to tenants for operating lease receivables where prior demanded lease payments have been reduced or waived for a specified period are accounted as an expected credit loss. Concessions granted to tenants for future lease payments are accounted as a lease modification. Concessions granted to tenants which allow the deferral of rent payments to the Group are not accounted for as lease modifications on the basis there is no change to the consideration or scope of the lease.

Surrender premia for the early termination of a lease are recognised as revenue when the amounts become contractually due, net of dilapidations and non-recoverable outgoings relating to the lease concerned.

The Group applies the five-step-model as required by IFRS 15 'Revenue from Contracts with Customers' in recognising its service charge income. Service charge income is recognised as revenue in the period to which it relates.

Cost of Sales
All costs of sales are charged against revenue on an accruals basis. These are mostly made up of property related and service charge expenses arising from renting properties to tenants.

2 Accounting policies (continued)

Current and deferred income tax
Current tax is based on taxable profit for the year and is calculated using tax rates that have been enacted or substantively enacted at the balance sheet date. Taxable profit differs from net profit as reported in the income statement because it excludes items of income or expense that are not taxable (or tax deductible).

Deferred tax is provided on items that may become taxable in the future, or which may be used to offset against taxable profits in the future, on the temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes, and the amounts used for taxation purposes on an undiscounted basis. On business combinations, the deferred tax effect of fair value adjustments is incorporated in the consolidated balance sheet.

Deferred tax assets and liabilities are net off against each other in the consolidated balance sheet when they relate to income taxes levied by the same tax authority on different taxable entities which intend to either settle current tax assets and liabilities on a net basis.

Investment property
Properties are externally valued at the balance sheet date. Investment properties are recorded at valuation.

The cost of properties in the course of development includes attributable interest and other associated outgoings. Interest is calculated on the development expenditure by reference to specific borrowings where relevant and otherwise on the average rate applicable to short-term loans. Interest is not capitalised where no development activity is taking place. A property ceases to be treated as a development property on practical completion.

The Group leases out investment properties under operating leases with rents generally payable monthly or quarterly. The Group is exposed to changes in the residual value of properties at the end of current lease agreements, and mitigates this risk by actively managing its tenant mix in order to maximise the weighted average lease term, minimise vacancies across the portfolio and maximise exposure to tenants with strong financial characteristics. The Group also grants tenant incentives to encourage high quality tenants to remain in properties for longer lease terms. Tenant incentives, such as rent-free periods and cash contributions to tenant fit-out, and contracted rent increases are recognised as part of the investment property balance. The Group calculates the expected credit loss for tenant incentives and contracted rent increases based on lifetime expected credit losses under the IFRS 9 ‘Financial Instruments’ simplified approach.

Investment property disposals are recognised on completion. The profit on disposal is determined as the difference between the net sales proceeds and the carrying amount of the asset at the commencement of the accounting period plus capital expenditure in the period.

Owner-occupied property
Properties are externally valued at the balance sheet date. Owner-occupied properties are recorded at valuation.

Any surplus arising on revaluing owner-occupied properties above cost is recognised in other comprehensive income, and any deficit arising in revaluation below cost for owner-occupied properties is recognised in the income statement.

Investments
Fixed asset investments, including investments in subsidiaries and associates, are stated at the lower of cost and the underlying net asset value of the investments.

Cash and cash equivalents
Cash and cash equivalents comprise cash on hand and call deposits, and other short-term highly liquid investments that are readily convertible to a known amount of cash and are subject to an insignificant risk of changes in value.

2 Accounting policies (continued)

Leases
In determining whether leases and related properties represent operating or finance leases, consideration is given to whether the tenant or landlord bears the risks and rewards of ownership.

Share capital
Ordinary shares are classified as equity. Equity instruments are measured at the fair value of the cash or other resources received or receivable, net of the direct costs of issuing the equity instruments. If payment is deferred and the time value of money is material, the initial measurement is on a present value basis.

Financial assets and liabilities
Debtors and creditors are initially recognised at fair value and subsequently measured at amortised cost and discounted as appropriate. On initial recognition the Group calculates the expected credit loss for debtors based on lifetime expected credit losses under the IFRS 9 simplified approach.

Loans and receivables classified as amortised cost are measured using the effective interest method, less any impairment. Interest is recognised by applying the effective interest rate.

The lease liability associated with investment property which is held under a lease, is initially calculated as the present value of the minimum lease payments. The lease liability is subsequently measured at amortised cost, unwinding as finance lease interest accrues and lease payments are made.

Debt instruments are stated at their net proceeds on issue. Finance charges including premia payable on settlement or redemption and direct issue costs are spread over the period to maturity, using the effective interest method. Exceptional finance charges incurred due to early redemption (including premia) are recognised in the income statement when they occur.

As defined by IFRS 9, cash flow hedges are initially recognised at fair value at the date the derivative contracts are entered into, and subsequently remeasured at fair value. Changes in the fair value of derivatives that are designated and qualify as effective cash flow hedges are recognised directly through other comprehensive income as a movement in the hedging and translation reserve. Any ineffective portion of all derivatives is recognised in the income statement. Changes in the fair value of derivatives that are not in a designated hedging relationship under IFRS 9 are recorded directly in the income statement. These derivatives are carried at fair value on the balance sheet.

Cash equivalents are limited to instruments with a maturity of less than three months.

Impairment of financial assets
The Group assesses at the end of each reporting period whether there is objective evidence that a financial asset or group of financial assets is impaired. A financial asset or a group of financial assets is impaired and impairment losses are incurred only if there is objective evidence of impairment as a result of one or more events that occurred after the initial recognition of the asset (a ‘loss event’) and that loss event (or events) has an impact on the estimated future cash flows of the financial asset or group of financial assets that can be reliably estimated.

3 Critical accounting judgements and key sources of estimation uncertainty

In applying the Group’s accounting policies, the Directors are required to make critical accounting judgements and assess key sources of estimation uncertainty that affect the financial statements.

3 Critical accounting judgements and key sources of estimation uncertainty (continued)

Key sources of estimation uncertainty:

- Valuation of investment and development properties: The Group uses external professional valuers to determine the relevant amounts. The primary source of evidence for property valuations should be recent, comparable market transactions on an arm's length basis. However, the valuation of the Group's property portfolio is inherently subjective, as it is based upon valuer assumptions and estimations that form part of the key unobservable inputs of the valuation, which may prove to be inaccurate. Further details on the valuers' assumptions, estimates and associated key unobservable inputs sensitivity disclosures, have been provided in Note 9.

- Company's investments in subsidiaries: In estimating the requirement for impairment of investments, management make assumptions and estimates on the value of these investments using inherently subjective underlying asset valuations, supported by independent valuers with reference to investment properties held by the subsidiary, which are held at fair value. The assumptions and inputs used in determining the fair value are disclosed in Note 11.

Critical accounting judgements:

The directors do not consider there to be any critical accounting judgements in the preparation of Group and Company financial statements. The following items are ongoing areas of accounting judgement, however, the Directors do not consider these accounting judgements to be critical, and significant accounting judgement has not been required for any of these items in the financial year.

- REIT status: The Group is a Real Estate Investment Trust ('REIT') and does not pay tax on its property income or gains on property sales, provided that at least 90% of the Group's property income is distributed as a dividend to shareholders, which becomes taxable in their hands. In addition, the Group has to meet certain conditions such as ensuring the property rental business represents more than 75% of total profits and assets. Any potential or proposed changes to the REIT legislation are monitored and discussed with HMRC. It is the Directors' intention that the Group will continue as a REIT for the foreseeable future.
- Accounting for transactions: Property transactions are complex in nature and can be material to the financial statements. Assessment is required to determine the most appropriate accounting treatment of assets acquired and of potential contractual arrangements in the legal documents for both acquisitions and disposals. Management consider each transaction separately and, when considered appropriate, seek independent accounting advice.

4 Revenue

Group

The analysis of the Group's revenue for the year from continuing operations is as follows:

	2024 £ m	2023 £ m
Rent receivable	**178**	162
Surrender premia	**3**	4
Service charge income	**86**	83
Spreading of tenant incentives and guaranteed rent increases	**(2)**	12
	265	261

All revenue was generated in the United Kingdom.

Broadgate REIT Limited

Notes to the Financial Statements for the Year Ended 31 March 2024 (continued)

5 Finance income and finance costs

Group	2024 £ m	2023 £ m
Finance income		
Interest income on derivatives	**-**	2
Revaluation gain on non-hedge accounted derivatives	**-**	5
Interest income on deposits	**4**	2
Total finance income	**4**	9
Finance costs		
Interest on Secured bonds and Green loan	**(70)**	(67)
Other finance costs	**(3)**	(2)
Revaluation loss on non-hedge accounted derivatives	**(9)**	-
Total finance costs	**(82)**	(69)
Net finance costs	**(78)**	(60)

6 Auditors' remuneration

	2024 £	2023 £
Fees payable to Company's auditors (PricewaterhouseCoopers LLP) :		
- audit of Company's financial statements	**45,700**	45,273
- audit of Company's subsidiary financial statements	**194,960**	199,127
- audit related assurance services	**45,512**	39,100
	286,172	283,500

Audit related assurance services of £45,512 (2023: £39,100) are for the provision of the interim review.

7 Employees and directors' remuneration

No director received any remuneration for services to the Company in either year.

Average number of employees, excluding directors, of the Group and Company during the year was nil (2023: nil).

Directors' remuneration is borne by the joint venture partners for which no apportionment or recharge (2023: nil) is made.

Net book value	390	30	3,722	4,142

See Note 10 for information about the transfers from investment property to owner-occupied property.

The different valuation method levels are defined below:

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3: Inputs for the asset or liability that are not based on observable market data (unobservable inputs).

These levels are specified in accordance with IFRS 13 ‘Fair Value Measurement’. Property valuations are inherently subjective as they are made on the basis of assumptions made by the valuer which may not prove to be accurate. For those reasons, we have classified the valuations of our property portfolio as Level 3 as defined by IFRS 13. The inputs to the valuations are defined as ‘unobservable’ by IFRS 13. These key unobservable inputs are net equivalent yield and estimated rental values for investment properties, and costs to complete for development properties. Further analysis and sensitivity disclosures of these key unobservable inputs have been included on the following pages.

The Group’s total property portfolio was valued by external valuers on the basis of fair value, in accordance with the RICS Valuation - Global Standards 2022, published by The Royal Institution of Chartered Surveyors.

Investment properties, excluding properties held for development, are valued by adopting the ‘investment method’ of valuation. This approach involves applying capitalisation yields to current and future rental streams net of income voids arising from vacancies or rent-free periods and associated running costs. These capitalisation yields and future rental values are based on comparable property and leasing transactions in the market using the valuers’ professional judgement and market observation. Other factors taken into account in the valuations include the tenure of the property, tenancy details and ground and structural conditions.

Broadgate REIT Limited

Notes to the Financial Statements for the Year Ended 31 March 2024 (continued)

9 Investment properties (continued)

In the case of ongoing developments, the approach applied is the 'residual method' of valuation, which is the investment method of valuation as described above, with a deduction for all costs necessary to complete the development, including a notional finance cost, together with a further allowance for remaining risk. Properties held for development are generally valued by adopting the higher of the residual method of valuation, allowing for all associated risks, or the investment method of valuation for the existing asset.

Properties were valued as at 31 March 2024 and 31 March 2023 by Cushman & Wakefield. Properties valued at £2,711m (2023: £2,916m) were charged to secure the borrowings of Broadgate Financing PLC. Properties valued at £734m (2023: £755m) were charged to secure the borrowings of Broadgate (PHC 3) Limited.

Information about fair value measurements using unobservable inputs (Level 3):

	Valuation at 31 March 2024 £m	Valuation technique	Estimated rental value (ERV) per sq ft Weighted average £	Net equivalent yield (NEY) Weighted average %
Investment properties	4,132	Investment methodology & Residual Site valuation method (Developments only)	63	5.4

	Valuation at 31 March 2023 £m	Valuation technique	ERV per sq ft Weighted average £	NEY Weighted average %
Investment properties	4,142	Investment methodology & Residual Site valuation method (Developments only)	60	4.9

The table below shows the impact of changes in unobservable inputs (Level 3) on the fair value of the Group's property portfolio for the year ended 31 March 2024. NEY is abbreviated from net equivalent yield.

Fair value 31 March 2024 £m	+5% ERV £m	-5% ERV £m	-25bps NEY £m	+25bps NEY £m	-5% costs £m	+5% costs £m
4,132	234	(230)	293	(266)	43	(43)

Fair value 31 March 2023 £m	+5% ERV £m	-5% ERV £m	-25bps NEY £m	+25bps NEY £m	-5% costs £m	+5% costs £m
4,142	223	(220)	312	(281)	38	(38)

9 Investment properties (continued)

All other factors being equal:
- a higher equivalent yield or discount rate would lead to a decrease in the valuation
- an increase in the current or estimated future rental stream would have the effect of increasing the capital value
- an increase in the costs to complete would lead to a decrease in the valuation

However, there are interrelationships between the unobservable inputs which are partially determined by market conditions, which would impact on these changes.

The valuers of the Group's property portfolio have a working knowledge of the various ways that sustainability and Environmental, Social and Governance factors can impact value and have considered these, and how market participants are reflecting these in their pricing, in arriving at their Opinion of Value and resulting valuations as at the balance sheet date. These may be:

• Physical risks;
• Transition risk related to policy or legislation to achieve sustainability and Environmental, Social and Governance targets; and
• Risks reflecting the views and needs of market participants.

Where available, the Group has shared physical climate and transitional risk assessments with the valuers which they have reviewed and taken into consideration to the extent that current market participants would.

Valuers observe, assess and monitor evidence from market activities, including market (investor) sentiment on issues such as longer-term obsolescence and, where known, future Environmental, Social and Governance related risks and issues which may include, for example, the market's approach to capital expenditure required to maintain the utility of the asset. In the absence of reliable benchmarking data and indices for estimating costs, specialist advice on cost management may be required which is usually agreed with the valuer in the terms of engagement and without which reasonable estimates/assumptions may be needed to properly reflect market expectations in arriving at the Opinion of Value.

Information about future aggregate minimum rentals receivable under non-cancellable operating leases
The Group leases out all of its investment properties under operating leases. The future aggregate minimum rentals receivable under non-cancellable operating leases are as follows:

Group	2024 £ m	2023 £ m
Less than one year	**156**	149
Between one and five years	**468**	458
Greater than five years	**361**	442
Total	**985**	1,049

10 Owner-occupied properties

Within the group, the property that sits in entity Broadgate Eldon Properties Limited is leased to Bluebutton Developer Company (2012) Limited, which are both subsidiaries within the Group. Therefore, this property is classified as an owner-occupied property in accordance with IAS 40 'Investment Properties'. The property was reclassified to owner-occupied property in the year. The value of the property at 31 March 2023 was £22m. The revaluation loss during the financial year was £3m. The value of the property at 31 March 2024 is £19m.

Maturity analysis of net debt of the Group

	31 March 2024 £ m	31 March 2023 £ m
Repayable within one year and on demand	**1,304**	998
Due within one to two years	**47**	35
Due within two to five years	**558**	558
Due in more than five years	**924**	971
	1,529	1,564
Gross debt of the Group	**2,833**	2,562
Cash and cash equivalents (Note 14)	**(184)**	(175)
Interest rate derivative assets	**(24)**	(28)
Net debt of the Group	**2,625**	2,359

At 31 March 2024, 100% of the secured bonds were fixed (2023: 100%). The secured bonds issued are due from 2005 and expected to be repaid by 2033. Legal repayment is required by 2036. The secured bonds are secured on properties of the Group valued at £2,288m (2023: £2,916m). The weighted average interest rate of the bonds is 4.93% (2023: 4.93%). The weighted average maturity of the bonds is 6.9 years (2023: 7.9 years). Details of the terms and conditions of the bonds are available at the British Land website.

The £420m Green Loan, which is secured on the property held in Broadgate (PHC 3) Limited, is at a floating rate of interest and matures in June 2026. The loan is partially hedged with interest rate caps and swaps. At 31 March 2024 the average interest rate of the loan, including the effect of these derivatives, was 3.6% (2023: 3.3%). The loan includes LTV and interest cover ratio covenants.

Comparison of market values and book values and fair value hierarchy

The table below provides a comparison of market value and book value along with the classification per the fair value hierarchy. The different levels are defined as follows:

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3: Inputs for the asset or liability that are not based on observable market data (unobservable inputs).

Broadgate REIT Limited

Notes to the Financial Statements for the Year Ended 31 March 2024 (continued)

16 Loans and borrowings (continued)

		31 March 2024		31 March 2023	
	Level	Market value £m	Book value £m	Market value £m	Book value £m
Secured bonds	2	**1,069**	**1,094**	1,068	1,096
Green loan	2	**420**	**419**	420	419
Term loan	2	**52**	**52**	52	52
Interest rate derivative assets	2	**(24)**	**(24)**	(28)	(28)
		1,517	**1,541**	1,512	1,539

The fair values of the Secured bonds have been established by obtaining quoted market prices from brokers. The Green loan and the term loan have been valued assuming they could be renegotiated at contracted margins.

The fair value of the Shareholder loans is approximately equal to the book value.

There are no fair value financial instruments in Level 1 or Level 3 hierarchy for both current year and prior year.

Risk Management

Capital risk management:
The Group finances its operations by a mixture of equity, public debt issues and loans provided by shareholders to support the property strategy of the Group.

The approach adopted has been to engage in debt financing with long term maturity dates and as such the bonds issued are due from 2005 and expected to be repaid by 2033. Legal repayment is required by 2036. Including debt amortisation 59% of the total third party borrowings are due for payment after 5 years (2023: 61%).

The Group aims to ensure that potential debt providers understand the business and a transparent approach is adopted with lenders so they can understand the level of their exposure within the overall context of the Group.

Details of bond covenants are outlined in the bonds publicly available Offering Circular.

Interest rate risk management
The Group uses interest rate swaps and caps to hedge exposure to the variability in cash flows on floating rate debt caused by movements in market rates of interest.

At 31 March 2024, the fair value of these derivatives is a net asset of £24m (2023: £28m). Interest rate swaps with a fair value of £18m (2023: £15m) have been designated as cash flow hedges under IFRS 9.

The ineffectiveness recognised in the income statement on cash flow hedges in the year ended 31 March 2024 was £nil (2023: £nil).

The outstanding variable rate debt hedged at one year is £294m (2023: £294m), and at two years is £294m (2023: £294m).

At 31 March 2024, £1,390m (2023: £1,393m) of external debt was at fixed or capped rates, including the effect of derivatives. At 31 March 2024, £178m (2023: £178m) of external debt was at variable rates.

16 Loans and borrowings (continued)

Sensitivity table of market rate movements

Group

	31 March 2024		31 March 2023	
	Increase	**Decrease**	**Increase**	**Decrease**
Movement in interest rates (bps)	**100**	**(100)**	100	(100)
Impact on underlying annual profit (£m)	**(2)**	**2**	(2)	2
Movement in medium and long term swap rates (bps)	**424**	**(424)**	424	(424)
Impact on cash flow hedge and non-hedge accounted derivative valuations (£m)	**23**	**(26)**	31	(35)

The movement used for the current year sensitivity analysis for underlying profit represents a 1% change in interest rates.

This movement used for sensitivity analysis for derivative valuations represents the largest annual change in the seven-year Sterling swap rate over the last 10 years.

Credit risk:
Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss. The carrying amount of financial assets recorded in the financial statements represents the Group's maximum exposure to credit risk without taking account of the value of any collateral obtained.

Cash and cash equivalents at 31 March 2024 amounted to £184m (2023: £175m) and are placed with financial institutions with A or better credit ratings. At 31 March 2024, prior to taking account of any offset arrangements, the largest combined credit exposure to a single counterparty arising from money market deposits was £60m (2023: £84m). This represents 1.4% (2023: 1.9%) of gross assets.

In order to manage credit risk, management regularly reviews the credit rating of credit counterparties and monitors all amounts that are owed to the Group.

Liquidity risk:
Liquidity risk is the risk that the Group will encounter difficulty in raising funds to meet commitments associated with financial liabilities. This risk is managed through day to day monitoring of future cash flow requirements to ensure that the Group has resources to pay future liabilities as they fall due.

The following table presents a maturity profile of the contracted cash flows of financial liabilities based on the earliest date on which the Group can be required to pay. The table includes both interest and principal flows.
