THE COMPANY

Introduction

The Company is an open-ended investment company which was registered with limited liability in Guernsey on 17 March 2010. The Company is an umbrella Company constituted as a protected cell company under the Companies Law. The provisions of the Companies Law relating to protected cell companies allow a protected cell company to create one or more Cells for the purpose of segregating and protecting the assets within those Cells so that liabilities of the Company attributable to one Cell can only be satisfied out of the assets of that Cell, and holders of shares of a particular Cell have no right to the assets of any other Cell or to the non-cellular assets. Details of the Cells currently in existence or which the Directors have resolved to create can be found in the Supplemental Particulars which are included with these Particulars.

The Company follows the Guernsey Code of Corporate Governance. The Company does not have an investor relations website.

The base currency of the Company and of each Cell (unless otherwise stated in the relevant Supplemental Particulars) is Pounds Sterling.

Investment Philosophy

The investment philosophy of the Company is to achieve long-term capital appreciation by investing in a broadly diversified portfolio of collective investment schemes and exchange traded funds. Details of the investment objective and philosophy of each Cell can be found in the relevant Supplemental Particulars.

Borrowings

The circumstances in which the Company may borrow for the account of any Cell and the limits on the amounts which the Company may borrow (and have outstanding) for the account of any Cell are set out in the Supplemental Particulars.

Dividend Policy

The dividend policy adopted by the Directors in relation to each Cell is set out in the relevant Supplemental Particulars.

RISK FACTORS

The value of Participating Shares (and the income from them) may fall as well as rise and investors may not get back, on a redemption or otherwise, the amount originally invested.

The success of the Company and each of its Cells will depend on the performance of the Investment Manager. No assurance can be given that they will succeed in meeting the investment objectives or that their assessments of the short-term or long-term prospects, volatility and correlation of the types of investments referred to in the relevant Supplemental Particulars will prove accurate.

A Cell may invest in securities which are denominated in currencies other than the base currency of that Cell. The ability of a Cell to hedge currency risks may be affected by limited forward markets for the hedging of the base currency against the currency of investment. A Cell may invest in derivatives.

The segregation of liabilities within each Cell permitted by Guernsey law might not necessarily be recognised in jurisdictions where the Company's assets are located. Each Cell will hold its investments directly and there will be no limited liability structure acting as a holding company for a Cell.

The foregoing factors are not exhaustive and do not purport to be a complete explanation of all the risks and considerations involved in investing in the Company. In particular, the Company's performance may be affected by changes in market or economic conditions, and legal, regulatory and tax requirements. The Company will be responsible for paying the fees, charges and expenses referred to herein regardless of the level of profitability.

In addition to the factors above investors should read the "Risk Factors" section in the Supplemental Particulars of the relevant Cell.

SUBSCRIPTION, REDEMPTION AND CONVERSION OF SHARES

Subscription Procedure

Details of the terms and the timing requirements for subscribing for Participating Shares of any Cell can be found in the relevant Supplemental Particulars, applications received after such specified time will be held over to the next available Dealing Day. Investors can subscribe for Participating Shares in that Cell on the Dealing Day appointed for the Cell specified in the relevant Supplemental Particulars by using the application form available from the Investment Manager and the Administrator.

In addition, cleared subscription monies must be received into the bank account detailed in the Supplemental Particulars no later than 3 Business Days after the relevant Dealing Day. In the event that cleared subscription monies are not received within the timeframe the Investment Manager shall be entitled to refuse the application and, if Shares have been issued, to cancel such issue.

The exception to this requirement is in the case of conversion of Participating Shares of one Cell to Participating Shares of another Cell, funds from the redemption of the old Participating Shares will be applied in the purchase of the new Participating Shares.

The right is reserved to reject a subscription or to accept a subscription in part only or to treat as a valid subscription which does not fully comply with the terms and conditions of the subscription policy. If a subscription is not accepted, the amount paid for the subscription will be returned, without interest and less bank charges by telegraphic transfer to the remitting bank details, to the account of the remitter quoting the applicant's name, at the applicant's risk.

The Administrator is required to verify the identity of all applicants by collating their due diligence (“CDD”), this includes but is not limited to collation of passports, utility bills, bank statements, evidence of the source of funds and source of wealth, in accordance with applicable anti-money-laundering legislation. If satisfactory evidence is not received and approved by the Administrator prior to the Dealing Day subscriptions will be rolled, and will continue to roll until the Administrator has been able to satisfy the CDD requirements. No Participating Shares will be issued to an investor, until the identity of the applicant has been verified to the satisfaction of the Administrator.

Calculation of Subscription Prices

The price at which Participating Shares of each Cell can be purchased after the applicable Closing Date (the “**Subscription Price**”) will be calculated as follows. The Administrator will determine the Net Asset Value of each Cell as at the Valuation Point and divide the resulting amounts by the number of Shares of the Cell in issue or deemed to be in issue. In the case of Cells with more than one Class of Share the Administrator will then calculate any applicable Designated Class Adjustment for the relevant Class and adjust the Net Asset Value per Participating Share of the Class accordingly. The value per Share thus produced is rounded to the nearest four decimal places to arrive at the Subscription Price of the relevant Class. The benefit of any rounding will be retained by the Company. Under the terms of the Articles, the Administrator is permitted, when calculating the Subscription Price, to add an allowance for the duties and charges which would be incurred on the assumption that the investments held for the relevant Cell were to be acquired at the relevant Valuation Point.

Minimum Subscription

Details of the minimum subscription and the minimum additional top up amount which may be subscribed at any time applicable to each Cell are set out in the relevant Supplemental Particulars.

Contract Notes

A contract note will be sent by email to the applicant on acceptance of the subscription usually within 5 Business Days after the relevant Dealing Day providing details of the transaction.

All Participating Shares will be issued in registered form and the register will be conclusive evidence

of ownership. The register of Shareholders may be inspected at the office of the Administrator, the address of which is stated in the Directory on page 6, during usual office hours. Certificates will not be issued. Any changes to a Shareholder's personal details must be notified immediately to the Administrator in writing.

Redemption Procedure

Participating Shares of each Cell may be redeemed at the Redemption Price on any Dealing Day subject to such period of notice as may be specified in the relevant Supplemental Particulars. Redemption forms are available from the Investment Manager and Administrator upon request.

A request for redemption of part of a Shareholder's holding of Participating Shares of any Cell may be treated as a request to redeem the entire holding if, as a result of such partial redemption, a Shareholder would then hold Participating Shares in the Cell with a value of less than the minimum investment amount specified in the relevant Supplemental Particulars or its equivalent in the base currency of the relevant Cell.

Subject to compliance by the Company with the Companies Law, redemption will take place on the relevant Dealing Day provided that all the redemption requirements have been satisfied. If the Administrator is not given the appropriate notice as specified in the Supplemental Particulars for a nominated Dealing Day, redemption will normally take place on the next available Dealing Day.

Minimum Redemption

Details of the minimum redemption amount which may be redeemed at any time applicable to each Cell are set out in the relevant Supplemental Particulars.

Calculation of Redemption Prices

The price at which Participating Shares of each Cell will be redeemed ("**Redemption Price**") will be calculated as follows. The Administrator will determine the Net Asset Value of each Cell as at the Valuation Point and divide the resulting amounts by the number of Shares of the Cell in issue or deemed to be in issue. In the case of Cells with more than one Class of Share the Administrator will then calculate any applicable Designated Class Adjustment for the relevant Class and adjust the Net Asset Value per Participating Share of the Class accordingly. The value per Share thus produced is rounded to the nearest four decimal places to arrive at the Redemption Price of the relevant Class. The benefit of any rounding will be retained by the Company. Under the terms of the Articles, the Administrator is permitted, when calculating the Redemption Price, to deduct an allowance for duties and charges which would be incurred if the investments held for the relevant Cell were to be sold at the relevant Valuation Point.

Deferral of Conversions and Redemptions

The Directors may limit the total number of Participating Shares in a Cell which may be redeemed on any Dealing Day to such percentage of the total number of Participating Shares in issue in that Cell as the Directors may determine. The applicable percentage shall be disclosed in the relevant Supplemental Particulars. The limitation will be applied pro rata to all Shareholders who have requested redemptions to be effected on or as at such Dealing Day so that the proportion of each holding redeemed is the same for all such Shareholders. Any Participating Shares which, by virtue of this limitation, are not redeemed on any particular Dealing Day shall be carried forward for redemption on the following Dealing Day at the Redemption Price ruling on that Dealing Day. In respect of any Dealing Day to which redemption requests are deferred ("**Deferred Requests**"), such requests will be dealt in priority to other requests for redemption of Participating Shares on that day ("**Other Requests**") until the Deferred Requests have been satisfied in full. The deferral powers described in this paragraph shall apply mutatis mutandis to any Other Requests which, as a result of the above limit, have not been satisfied in full on any Dealing Day.

Compulsory Redemption

The Directors of the Company have the power under the Articles in their absolute discretion to compulsorily redeem or to require the transfer of at any time the Participating Shares of any investor (i) which, as a result of a redemption of any part of the investor's holding, have a value of less than the minimum amount detailed in the relevant Supplemental Particulars or (ii) who is unable to provide the Administrator with such documentation and/or information the Administrator may reasonably have requested or (iii) who holds Participating Shares directly or beneficially in breach of any law or requirement of any country, governmental or regulatory authority or (iv) whose existence as a Shareholder in the Company causes or threatens to cause the Company or any Cell to incur any liability to taxation or to suffer any pecuniary or other disadvantage in any jurisdiction which it would otherwise not have expected to incur or suffer.

The Directors also have the power to give not less than 21 clear days' notice (expiring on a Dealing Day) in order to compulsorily redeem all Participating Shares in issue, if the aggregate Net Asset Value of all Cells then in existence as at each Valuation Point falling within a period of 6 consecutive weeks is less than the equivalent of £2 million. A power of compulsory redemption is also exercisable by the Directors (subject to notice as aforesaid) in the event that, if at any time after its creation, the Net Asset Value of any Cell as at each Valuation Point for 4 consecutive Dealing Days is less than the amount specified in the relevant Supplemental Particulars. This power is without prejudice to the ability of Shareholders to convert their Participating Shares in such Cell into Participating Shares of another Cell.

Default

In accordance with the Class B Rules, Participating Shares will be cancelled, if default is made, by a Shareholder, in making any payment in money or transfer of property due to the Company or any Cell either under the provisions of the Class B Rules, or any other rules made by the Commission, or the principal documents, in respect of the creation and issue of the Participating Shares.

Calculation of Net Asset Value

The Net Asset Value of each Cell will be calculated by the Administrator at the Valuation Point on the Business Day immediately prior to each Dealing Day. Under the Articles the Net Asset Value of a Cell is determined by deducting the value of the total liabilities of the Cell from the value of the total assets of the Cell. Total assets include all cash, accounts receivable, accrued interest and the current market values of all investments. Total liabilities include any fees payable to the Administrator, the Custodian and the Investment Manager, all borrowings, provision for taxes (if any), allowances for contingent liabilities and any other costs and expenses reasonably and properly incurred by the Investment Manager in effecting the acquisition or disposal of securities. Further information on the valuation of assets is provided in section 3 of "Additional Information" below.

In respect of each Class, a separate Class account shall be established in the books of the Cell. An amount equal to the proceeds of allotment of each Class shall be credited to the relevant Class account. Any increase or decrease in the Net Asset Value of the portfolio of assets of the Cell (disregarding for these purposes any increases in the Net Asset Value of the portfolio due to new subscriptions or decreases due to redemptions or any Designated Class Adjustments (as defined below)) shall be allocated to the separate Class accounts based on the previous relative Net Asset Values of the separate Class accounts. There shall then be allocated to the relevant Class account the "**Designated Class Adjustments**" being those costs, pre-paid expenses, losses, dividends, profits, gains and income which the Directors determine relate to that Class (including those items relating to the foreign exchange hedging transactions undertaken in respect of the holders of that Class). The Net Asset Value of each Class of Participating Share shall then be calculated by dividing the Net Asset Value of the relevant Class by the total number of Participating Shares of the relevant Class, as appropriate, in issue at the relevant Valuation Point (including any Participating Shares being redeemed but excluding Participating Shares to be issued on the following Dealing Day).

Publication of Net Asset Value and Prices

The Net Asset Value per Share of each Class within each Cell is calculated for each Dealing Day and the Subscription Prices and the Redemption Prices for each Cell will be available on request from the Administrator and shall be published in such publications as may be detailed in the relevant Supplemental Particulars.

Conversion Procedure

Subject to the Company having sufficient share capital available for issue, Shareholders will be entitled, subject to the agreement of the Directors, to exchange Participating Shares in one Cell (the “**original Cell**”) for Participating Shares in any other Cell then in existence or agreed to be brought into existence (the “**new Cell**”). Shareholders are required to give the same period of notice for the conversion of Participating Shares of the original Cell as they would have to give for the redemption of those Participating Shares. Any conversion request received after 5.00 pm (or such other time as the Directors may determine either generally or in relation to a Cell or in any specific case) on any Business Day may be deemed to have been received on the next following Business Day.

Instructions for the conversion of Participating Shares may be given by fax or electronic mail (with the original instruction to be sent to by post to the Administrator) or in writing to the Administrator at its address stated in the Directory and such instructions must specify the number or value and the class of Participating Shares to be converted and the class of Participating Shares into which they are to be converted. The Administrator will be deemed to be authorised to make such conversion if instructed to do so by any person purporting to be the Shareholder. Shareholders who submit their conversion notice by fax or email should note that failure to send the original subscription form to the Administrator may result in their Participating Shares being compulsorily redeemed.

If the new Cell is designated in a different currency from the original Cell, then new redemption payment instructions must be given in writing to the Administrator in respect of such new Cell. The signature of the Shareholder(s) will be verified by the Administrator to the original application form provided and, in the case of joint Shareholders, all must sign the new payment instructions. Where conversion is into a class of Participating Shares designated in the same currency as the existing holding, although the existing redemption payment instructions may also apply to the holding of the Participating Shares of the new Cell, each Shareholder will be required to complete a subscription form for the new Cell.

The conversion will be effected at the Subscription and Redemption Prices of Participating Shares in the relevant Cells in accordance (or nearly as may be in accordance) with the formula:

$$NS = OS \times ((RP - HC) \times CF) \div SP$$

where:-

- NS* is the number of Participating Shares of the new Cell to be allotted;
- OS* is the aggregate number of Participating Shares of the original Cell to be converted comprised in the conversion notice;
- RP* is the Redemption Price per share of the original Cell ruling on the relevant Dealing Day;
- CF* is the currency conversion factor determined by the Administrator as representing the effective rate of exchange on the relevant Dealing Day between the base currency of the relevant Cells;
- SP* is the Subscription Price per share for the new Cell ruling on the relevant

Dealing Day; and

HC is the handling charge not exceeding 4% of RP which shall be payable to the Administrator.

A contract note confirming the conversion between the Cells will be issued by the Administrator.

The Shareholder will bear any costs incurred in translating the redemption proceeds of the holding of the original Cell into the appropriate currency for the payment of the Subscription Price for the holding in the new Cell, where the original and new Cells have different designated base currencies. The Administrator may also levy an initial charge in respect of the investment in the new Cell up to the amount specified in the relevant Supplemental Particulars.

Suspension of Calculation of Net Asset Value and Dealing

The Company, with the prior agreement of the Custodian, may suspend the calculation of the Net Asset Value and the issue, redemption and conversion of Participating Shares of a Cell:-

- (a) during any period when any Recognised Investment Exchange on which any material part of the investments comprised in the Cell concerned for the time being are listed or dealt in is closed (otherwise than for ordinary holidays) or during which dealings are restricted or suspended, or in the case of investment in a unit trust, mutual fund or open-ended investment company, when the issue or redemption of units or shares is suspended or postponed;
- (b) during the existence of any state of affairs which, in the opinion of the Company, constitutes an emergency as a result of which disposal of investments comprised in the Cell would not be reasonably practicable or might seriously prejudice the interests of the Shareholders as a whole;
- (c) during any breakdown in the means of communication normally employed in determining the price of any of the investments comprised in the Cell or the current price on any investment exchange or when for any reason the prices of any investments cannot be promptly and accurately ascertained;
- (d) during any period when currency conversions which will or may be involved in the realisation of the investments comprised in the Cell or in the payment for investments cannot, in the opinion of the Company, be carried out at normal rates of exchange.
- (e) if it is desirable for the protection of the Company or the Cell or in the interests of the Shareholders as a whole; or
- (f) if the Companies Law and the Class B Rules otherwise permit.

Should the Company suspend the calculation of the Net Asset Value, an announcement to that effect will be posted on TISE and the listing of Participating Shares on the Official List of TISE will be suspended for the duration of such suspension. Following a suspension, the calculation of the Subscription and Redemption Prices will commence at the Valuation Point for the Dealing Day next after the last day of the suspension period. The fees of the Administrator, the Custodian and the Investment Manager will continue to accrue during the period of suspension and will be calculated by reference to the last valuation prior to the suspension coming into effect.

Eligible Investors

Each investor must represent and warrant to the Directors that, inter alia, they are able to acquire and hold Participating Shares without violating applicable laws.

The Company will not knowingly offer or sell Participating Shares to any investor to whom such offer

or sale would be unlawful or might result in any Cell or the Company incurring any liability to taxation or suffering any other pecuniary disadvantage which the Cell or the Company as the case may be might not otherwise incur or suffer. Participating Shares may not be held by any person in breach of the law or requirements of any country, governmental or regulatory authority including, without limitation, exchange control regulations.

Data Protection

Information about how the Company uses personal information may be found in the Data Protection section at Schedule 1 of these Scheme Particulars and the Privacy Notice located at Schedule 2. Please read this information and the representations and warranties wording carefully prior to completing the subscription form.

Prevention of Money Laundering and Terrorist Financing

Due to requirements designed to combat money laundering and terrorist financing operating within various jurisdictions, including Guernsey, the Administrator is required to identify and take risk based and adequate measures to verify the beneficial owners of all investors. The application of this risk based approach dictates that in certain circumstances the Administrator will be required to apply enhanced customer due diligence to certain investor types. Accordingly, the Administrator reserves the right to request such information as may be necessary to verify the identity of investors and any beneficial owner of Participating Shares, if any.

In the majority of cases, the Administrator's customer due diligence procedures will require an individual to produce a copy of a passport or identification card duly certified by a public authority such as a notary public, the police or the ambassador in his/her country of residence, together with evidence of his/her address such as a utility bill or bank statement. Similarly, for corporate applicants the Administrator will require a certified copy of its certificate of incorporation (and any change of name), a certified copy of its memorandum and articles of incorporation (or equivalent), and names, occupations, dates of birth and residential and business addresses of all directors and certain beneficial owners together with certified copies of utility bills and passports. The full due diligence requirements can be found in the application form which can be requested from the Investment Manager or Administrator.

The Administrator will require customer due diligence documentation prior to the investor's first subscription for Participating Shares, the Administrator may also require ongoing due diligence to be carried out with respect to certain categories of investors and accordingly the Administrator reserves the right to request any information at any time as may be necessary to verify the identity of a Shareholder or any beneficial owner of Participating Shares.

If satisfactory evidence is not received and approved by the Administrator prior to the Dealing Day subscriptions will be rolled and will continue to roll until the Administrator has been able to satisfy the CDD requirements.

If a subscription is rejected, any funds received by the Administrator shall be returned without interest, less any charges to the account of the remitter quoting the applicant's name. No Participating Shares will be issued to an investor, and no transfer will be registered, until the identity of the applicant or the transferee, as the case may be, has been verified to the satisfaction of the Administrator.

Transfers of Participating Shares

The Participating Shares are freely transferable although the Directors have a discretion to refuse to register a transfer of Participating Shares if as a result a Cell or the Company might incur any liability to taxation or suffer any other pecuniary disadvantage which the Cell or the Company as the case may be, might not otherwise incur or suffer. The Directors will not exercise such discretion unreasonably. Every transfer form submitted for registration must be accompanied by a subscription form completed by the transferee including the transferee's redemption payment instructions and the Directors reserve

the right to refuse to register a transfer until such instructions have been lodged.

The Administrator, Secretary and Registrar

The Company has appointed Sanne Fund Services (Guernsey) Limited (“Sanne”) to act as Administrator to the Company pursuant to an Administration Agreement dated 23 March 2010, as most recently amended and restated on 30 September 2022 (the “**Administration Agreement**”). Sanne is a wholly owned subsidiary of Apex Acquisition Company Limited as part of the Apex Group. The Apex Group employs over 13,000 people worldwide and administers in excess of £3 trillion of assets under a variety of structures and funds.

The Administrator was registered in Guernsey on 13 April 2005. The Administrator is licensed to provide administrative and other services to collective investment schemes by the Commission. Pursuant to the Administration Agreement, the Administrator will be responsible, among other things, for the following matters, under the general supervision of the Company:

- communicating with Shareholders;
- keeping the accounts of the Company and each Cell and any necessary books and records;

- processing subscription, conversion and redemption applications;
- determining the Net Asset Value of each Cell;
- calculating the prices at which Participating Shares are to be issued and redeemed; and
- calculating the fees of the Administrator, the Investment Manager and the Custodian.

The Administration Agreement may be terminated by either party on not less than six months' notice, or earlier upon certain breaches of the Administration Agreement or the insolvency or receivership of either party or if the Administrator ceases to be qualified to act as such.

Under the terms of the Administration Agreement the Administrator is not liable for any acts or omissions in the performance of its services under the Administration Agreement other than those that are caused by the Administrator's negligence, breach of the Administration Agreement, dishonesty, fraud, wilful neglect, wilful misconduct or bad faith. In the absence of fraud, negligence or wilful default on the part of the Administrator or any agent which is an associate the Administrator is entitled to be indemnified to the extent permitted by law, against all actions, proceedings, claims and demands arising in connection with the performance of its services.

The Investment Manager

The Investment Manager is the investment manager of the Company under the investment management agreement between the Company, the Administrator and the Investment Manager dated 23 March 2010, and as most recently amended by an amendment agreement dated 31 August 2021 ("**Investment Management Agreement**").

Under the terms of the Investment Management Agreement, the Investment Manager is responsible for providing investment management services.

The Investment Manager was registered in Guernsey on 6 September 1984.

The Investment Manager's appointment may be terminated at any time by the Company if there is a material breach of the Investment Management Agreement, upon the insolvency, liquidation (save for the purpose of a previously approved winding up) or receivership of the Investment Manager or if the Investment Manager ceases to be qualified to act as such. The Company is also entitled to remove the Investment Manager on 90 days' prior notice to expire at the end of a calendar quarter.

The Investment Manager may deal in Participating Shares without accounting to the Shareholders or the Company for any profits.

The Custodian

Butterfield Bank (Guernsey) Limited ("**Butterfield Bank**") was appointed to act as custodian of the Company and the assets of the Cells pursuant to a custodian agreement dated 23 March 2010, as amended and restated on 31 August 2021 (the "**Custodian Agreement**").

The Custodian is licensed by the Commission to act inter alia as custodian or trustee of Guernsey based collective investment schemes and is additionally a bank licensed under the provisions of the Banking Supervision (Bailiwick of Guernsey) Law, 2020. The Custodian also provides banking and related services to the Company on normal commercial terms and is entitled to retain all benefits arising therefrom. The activities of Butterfield Bank in its capacity as Custodian are appropriately segregated internally from Butterfield's activities as Investment Manager.

The Custodian is responsible for the safekeeping of all the assets of the Company. The Custodian may, however, appoint any person or persons to be the sub-custodian of some or all of the assets of the Company.

The Custodian's appointment may be terminated by the Company on not less than one month's notice if the Custodian commits any material breach of the Custodian Agreement, at any time upon the insolvency, liquidation (save for the purpose of a previously approved winding up) or receivership of the Custodian or if the Custodian ceases to be qualified to act as such or to be resident in Guernsey for fiscal purposes. The Company is also entitled to remove the Custodian on 90 days' notice.

The Registrar

On 12 July 2019, the Company, the Custodian and Administrator entered into an addendum to the Administration Agreement pursuant to which the Administrator was appointed as the Company's registrar with effect from 12 July 2019.

All Participating Shares issued will be registered and the register will be conclusive evidence of ownership. The register may be inspected by Shareholders during normal business hours on any Business Day at the registered office of the Company.

Any changes to a Shareholder's details must be notified immediately to the Administrator in writing. The Administrator reserves the right to require an indemnity or verification countersigned by a bank, stockbroker or other party acceptable to it before the Administrator can accept instructions to alter the register.

The Auditors

BDO Limited have been appointed as auditors to the Company.

- any other costs and expenses properly incurred by the Company in the course of its business.

CONFLICTS OF INTEREST

The Investment Manager and any other investment manager or adviser appointed by the Company may from time to time act as managers, investment advisers or advisers to other funds. It is therefore possible that the Investment Manager and/or such investment manager may, in the course of their business, have potential conflicts of interest with the Company or a Cell. An investment manager may, for example, make investments for other clients or on its own behalf without making the same available to the Company or a Cell. Each of the Investment Manager and any other relevant investment adviser will, however, have regard in such event to its obligations under the Investment Management Agreement and the investment advisory agreement respectively and, in particular, to its obligations to act in the best interests of the Company and each Cell so far as practicable, having regard to its obligations to other clients when undertaking any investment where potential conflicts of interest may arise.

Under the Articles cash forming part of the assets of any Cell may be placed by the Custodian in any current, deposit or loan account with itself or with any associate of the Custodian or the Investment Manager so long as that bank pays interest thereon at a rate no lower than is, in accordance with normal banking practice, the commercial rate for deposits of the size of deposit in question negotiated at arm's length.

The Articles also provide that the Investment Manager, the Custodian and any delegate of the Investment Manager or any associate of any of them may:-

- (1) deal in property of any description on that party's individual account notwithstanding the fact that property of that description is included in the assets of any Cell;
- (2) act as agent in the sale or purchase of property to or from the Custodian for the account of the Company;

without that party having to account to any other such party, to the Shareholders or any of them for any profits or benefits made by or derived from or in connection with any such transaction.

Cash forming part of the assets of a Cell may be invested in units in collective investment schemes managed or operated by the Investment Manager or by another body corporate in the same group as the Investment Manager or the Custodian.

TAXATION

The following statements are by way of a general guide to potential investors and Shareholders only, are not exhaustive and do not constitute tax advice. Potential investors and Shareholders are therefore advised to consult their professional advisers concerning possible taxation or other consequences of purchasing, holding, selling or otherwise disposing of the Participating Shares under the laws of their country of incorporation, establishment, citizenship, residence or domicile.

Potential investors and Shareholders should note that the following statements on taxation are based on advice received by the Directors regarding the law and published practice in force in the relevant jurisdiction at the date of this Prospectus. As is the case with any investment, there can be no guarantee that the tax position or proposed tax position prevailing at the time an investment is made in the Company will endure.

If you are in any doubt about your tax position, or if you may be subject to tax in a jurisdiction other than Guernsey, you should consult your professional adviser. Shareholders should note that the statements below are based on the Company's understanding of current legislation, regulations and practice, all of which are subject to change.

Guernsey

Guernsey does not levy taxes upon capital inheritances, capital gains, gifts, sales or turnover, nor are there any estate duties save for an ad valorem fee for the grant of probate or letters of administration.

The Company has been granted exempt status for Guernsey tax purposes. In return for the payment of a fee, currently £1,200, the Company is able to apply annually for exempt status for Guernsey tax purposes, provided that the Company qualifies under the applicable legislation for exemption. It is the intention of the Directors to conduct the affairs of the Company so as to ensure that it will continue to qualify for exempt company status for the purposes of Guernsey taxation.

As an exempt company, the Company will be treated as if it were not resident in Guernsey for the purposes of liability to Guernsey income tax. The exemption from income tax and the treatment of the Company as if it were not resident in Guernsey for the purposes of Guernsey income tax would be effective from the date the exemption is granted and will apply for the year of charge in which the exemption is granted.

Under current law and practice in Guernsey, the Company will only be liable to tax in Guernsey in respect of income arising or accruing from a Guernsey source, other than from a relevant bank deposit. It is not anticipated that such Guernsey source taxable income will arise in this case.

No deduction of income tax will be made by the Company from any dividends payable to any Shareholder but the Company will provide details of distributions made to Shareholders resident in the Islands of Guernsey, Alderney and Herm or who carry out business there through a permanent establishment, to the Director of the Revenue Service in Guernsey and the dividend income must be included by such Shareholders within their declared income for the purposes of calculation of their Guernsey income tax liability. In the case of Shareholders who are not resident for tax purposes in the Islands of Guernsey, Alderney and Herm and who do not carry on business there through a permanent establishment, such dividends may be paid and received free of Guernsey income tax.

US-Guernsey Inter-governmental Agreement

On 13 December 2013 the Chief Minister of Guernsey signed an intergovernmental agreement with the US ("US-Guernsey IGA") regarding the implementation of Foreign Account Tax Compliance Act ("FATCA"). Under FATCA and legislation enacted in Guernsey to implement the US-Guernsey IGA,

certain disclosure requirements will be imposed in respect of certain investors in the Company who are, or are entities that are controlled by one or more natural persons who are, residents or citizens of the US, unless a relevant exemption applies. Certain due diligence obligations will also be imposed. Where applicable, information that will need to be disclosed will include certain information about investor in the Company, their ultimate beneficial owners and/or controllers, and their investment in and returns from the Company. The Company will be required to report this information each year in the prescribed format and manner as per local guidance.

Under the terms of the US-Guernsey IGA, Guernsey resident financial institutions that comply with the due diligence and reporting requirements of Guernsey's domestic legislation to report certain information to the Guernsey tax authorities will be treated as compliant with FATCA and, as a result, should not be subject to FATCA withholding on payments they receive and should not be required to withhold under FATCA on payments they make. If the Company does not comply with these obligations, it may be subject to a FATCA deduction on certain payments to it of US source income (including interest and dividends) and (from no earlier than two years after the date of publication of certain final regulations defining "foreign passthru payments") a portion of non-US source payments from certain non-US financial institutions to the extent attributable to US source payments. The US-Guernsey IGA is implemented through Guernsey's domestic legislation in accordance with local guidance which is currently published in draft form.

Under the US-Guernsey IGA, securities that are "regularly traded" on an established securities market, are not considered financial accounts and are not subject to reporting. However, TISE is not considered to be an "established securities market" for these purposes.

Common Reporting Standard

On 13 February 2014, the Organization for Economic Co-operation and Development released the "Common Reporting Standard" ("**CRS**") designed to create a global standard for the automatic exchange of financial account information, similar to the information to be reported under FATCA. On 29 October 2014, fifty-one jurisdictions signed the multilateral competent authority agreement ("**Multilateral Agreement**") that activates this automatic exchange of FATCA-like information in line with the CRS. Since then further jurisdictions have also signed the Multilateral Agreement and in total over 100 jurisdictions have committed to adopting the CRS. Many of these jurisdictions have now adopted the CRS. Guernsey adopted the CRS with effect from 1 January 2016.

Under the CRS and legislation enacted in Guernsey to implement the CRS, certain disclosure requirements will be imposed in respect of certain investors who are, or are entities that are controlled by one or more natural persons who are, residents of any of the jurisdictions that have also adopted the CRS, unless a relevant exemption applies. Certain due diligence obligations will also be imposed. Where applicable, information that would need to be disclosed will include certain information about investors, their ultimate beneficial owners and/or controllers, and their investment in and returns from the Company. The Company will be required to report this information each year in the prescribed format and manner as per local guidance. The CRS is implemented through Guernsey's domestic legislation in accordance with published local guidance that is supplemented by guidance issued by the Organization for Economic Co-operation and Development.

Under the CRS, there is currently no reporting exemption for securities that are "regularly traded" on an established securities market.

Guernsey, along with the other Crown Dependencies, has introduced mandatory disclosure rules for CRS avoidance arrangements and opaque offshore structures. These rules require promoters of avoidance arrangements and service providers to disclose information on the arrangement or structure to the Revenue Service. Such information would include the identity of any user or beneficial owner and would then be exchanged with the tax authorities of the jurisdiction in which the users and/or beneficial owners are resident, provided that there is a relevant information exchange agreement.

Request for Information

The Company reserves the right to request from any investor or potential investor such information as the Company deems necessary to comply with FATCA, any FFI Agreement (defined below) from time to time in force, the CRS, or any obligation arising under the implementation of any applicable intergovernmental agreement, including the US-Guernsey IGA and the Multilateral Agreement, relating to automatic exchange of information with any relevant competent authority.

If the Company fails to comply with any due diligence and/or reporting requirements under Guernsey legislation implementing the US-Guernsey IGA and/or the CRS then the Company could be subject to (in the case of the US-Guernsey IGA) US withholding tax on certain US source payments, and (in all cases) the imposition of financial penalties introduced pursuant to the relevant implementing regulations in Guernsey. Whilst the Company will seek to satisfy its obligations under the US-Guernsey IGA and the CRS and associated implementing legislation in Guernsey to avoid the imposition of any financial penalties under Guernsey law, the ability of the Company to satisfy such obligations will depend on receiving relevant information and/or documentation about each Shareholder and the direct and indirect beneficial owners of the Shareholders (if any). There can be no assurance that the Company will be able to satisfy such obligations.

FATCA

The Company and/or interests in the Company could be subject to the application of the Foreign Account Tax Compliance provisions of the U.S. Hiring Incentives to Restore Employment Act 2010, which implemented sections 1471-1474 of the U.S. Internal Revenue Code of 1986, as amended ("**FATCA**"). FATCA generally imposes a reporting regime and potentially a 30% withholding tax with respect to certain U.S. source income (including dividends and interest) and (from no earlier than two years after the date of publication of certain final regulations defining "foreign passthru payments") a portion of non-U.S. source payments from certain non-U.S. financial institutions to the extent attributable to U.S. source payments ("**Withholdable Payments**"). As a general matter, the rules are designed to require U.S. persons' direct and indirect ownership of non-U.S. accounts and non-U.S. entities to be reported to the U.S. Internal Revenue Service ("**IRS**"). The 30% withholding tax regime applies if there is a failure to provide required information regarding U.S. ownership.

Generally, the rules will subject all Withholdable Payments received by the Company to 30% withholding tax (including the share that is allocable to non-U.S. persons) unless compliance with the rules by the Company is pursuant to an intergovernmental agreement between the jurisdiction in which the Company is based and the U.S. (as to which see references to the US-Guernsey Intergovernmental Agreement signed 13 December 2013, and Guernsey implementing legislation, both of which are referred to above), or the Company enters into an agreement (an "**FFI Agreement**") with the IRS to provide information, representations and waivers of non-U.S. law as may be required to comply with the provisions of the new rules, including, information regarding its direct and indirect U.S. accountholders.

FATCA IS PARTICULARLY COMPLEX AND ITS APPLICATION TO THE COMPANY, INTERESTS IN THE COMPANY AND THE HOLDERS THEREOF IS UNCERTAIN AT THIS TIME. EACH POTENTIAL INVESTOR SHOULD CONSULT ITS OWN TAX ADVISER TO OBTAIN A MORE DETAILED EXPLANATION OF FATCA AND HOW THIS U.S. LEGISLATION MIGHT AFFECT EACH POTENTIAL INVESTOR IN ITS PARTICULAR CIRCUMSTANCE.

- (b) fees, expenses and assets attributable to a particular Cell shall be borne by or allocated to that Cell. In the case of any fees, expenses or assets which the

Directors do not consider to be readily attributable to any particular Cell the Directors shall, subject to the approval of the Auditors to the Company, determine the basis upon which such fees, expenses or assets as the case may be shall be allocated between Cells and shall have power at any time and from time to time to vary such basis. Butterfield Multi-Asset Fund – GBP Balanced

Introduction

The Cell is a cell of Butterfield Bank PCC Limited, an open-ended protected cell company registered with limited liability in Guernsey on 17 March 2010 and authorised by the Guernsey Financial Services Commission as a Class B open-ended collective investment scheme pursuant to The Protection of Investors (Bailiwick of Guernsey) Law, 2020 (as amended) and the Authorised Collective Investment Scheme (Class B) Rules and Guidance 2021.

Investment Objective

The investment objective of the Cell is long term capital appreciation.

The Investment Manager will pursue this objective by investing in a highly diversified portfolio of collective investment schemes, exchange traded funds, other equities, bonds, money market instruments, cash, derivative instruments and structured products from around the world.

Investment Strategy

The investment manager will focus its skills and experience on the building of a portfolio of funds with a bias towards areas which it believes will outperform both now and in the future. The “top down” decisions relating to asset class allocation will inevitably be a key influencing factor in the performance of the Cell, and any asset class or sector which does not meet the criteria laid down will be excluded from the portfolio until such a time as its fortunes look set to improve.

Once the decision in relation to asset class is made, the manager will employ both quantitative and qualitative research to select fund managers whom it believes will provide the most consistent returns in its particular field over the medium to long term. It will also take advantage of the availability of exchange traded securities in instances where the size or efficiency of a particular investment market makes effective active management impractical.

The Cell will target real positive returns on an annual basis and will seek to provide investors with superior risk adjusted returns over the medium to long term. The Cell has no capital guarantees, and in times of extreme market conditions, these targets may prove difficult to achieve but will remain central to the investment strategy being implemented. However, the managers will endeavour to limit the downside potential of the Cell by making strategic calls in relation to asset classes and fund selection.

The Cell will adhere to the following allocations when selecting investments (to ensure that risk diversification is maintained):

Asset Class	Minimum	Maximum
Cash	0%	70%
Fixed Income	10%	55%
Equities	20%	70%
Alternatives	0%	30%

Investment Restrictions

In addition to the parameters outlined above the Cell will adhere to the following investment restrictions:

- (a) no more than 10% of the Net Asset Value of the Cell may be invested in any one collective investment scheme or exchange traded fund or other permissible asset;
- (b) the Cell will invest in a minimum of at least 3 collective investment schemes or exchange traded funds or other permissible assets in the 12 months following the Closing Date and will keep a minimum of 3 such investments thereafter; and
- (c) the assets of the Cell will be allocated to at least 3 managers or exchange traded fund providers.

The above restrictions apply as at the date of the relevant transaction or commitment to invest. Changes in the Cell do not have to be effected merely because, owing to appreciations or depreciations in value, redemptions or by reason of the receipt of, or subscription for, any rights, bonuses or benefits in the nature of capital or of any acquisition or merger or scheme of arrangement for amalgamation, reconstruction, conversion or exchange or of any redemption, any of the restrictions would thereby be breached, but regard shall be had to these restrictions when considering changes or additions to the Cell.

Notwithstanding the foregoing restrictions, the net assets of the Cell may include cash without limitation in a current or deposit account provided that the holding of such cash may reasonably be regarded as necessary in order to enable Participating Shares in the Cell to be redeemed or for the efficient management of the Cell in accordance with its objects or for other purposes which may reasonably be regarded as ancillary to the object of the Cell.

Borrowings

The Company may borrow for the account of the Cell an amount not exceeding 25 per cent of the Net Asset Value of the Cell for liquidity purposes.

Base Currency

The base currency of the Cell is Pounds Sterling.

Currency Hedging

The Investment Manager may from time to time seek to manage any foreign currency exposure by arranging for the Cell to enter into transactions in derivative instruments such as options, swaps and forward foreign exchange contracts and take short positions. There can be no guarantee that any hedging arrangements will be effective.

Amendments

The Directors are permitted to amend the preceding investment objectives, investment strategy, investment restrictions, borrowing powers and currency hedging powers which are applicable to the Cell provided that no material changes shall be made without providing Shareholders with sufficient notice to enable them to redeem their Participating Shares before such changes take effect. Shareholders are not required to approve such changes although the Directors reserve the right to seek Shareholder approval if they consider it appropriate to do so. In the event that the Directors do seek approval from Shareholders to such changes the Directors may also request that Shareholders approve a general waiver of the requirement set out above that Shareholders be provided with at least 5 Business Day's notice of proposed material changes. Shareholders should note that such a waiver, if approved, would apply to all Shareholders regardless of whether or not they voted in favour of it. Any such waiver would be subject to approval by Extraordinary Resolution of the Cell.

Distribution Policy

No dividends are payable in respect of the Cell.

Investment Manager

On 25 April 2019 ABN AMRO Bank N.V. entered into a share purchase agreement with N.T. Butterfield & Son Limited for the sale of the Investment Manager to Butterfield Bank (Guernsey) Limited ("Butterfield"). Upon completion of this agreement and receipt of regulatory approval, the Investment Manager changed its name to Butterfield Bank (Channel Islands) Limited on 15 July 2019. It subsequently changed its name to Butterfield Bank (Guernsey) Limited following a legal amalgamation on 9 September 2019. It remains the Investment Manager of the Company under the Investment Management Agreement.

Under the terms of the Investment Management Agreement, the Investment Manager is responsible for, *inter alia*, making decisions in relation to and implementing the acquisition, holding and disposal of investments for the Cell and reviewing the portfolios of the Cell periodically.

Under the terms of the Investment Management Agreement, the Investment Manager, the Administrator or the Company may terminate the appointment of the Investment Manager upon giving 90 days written notice or immediately upon certain breaches of the Agreement and certain other events such as insolvency.

Directors' interests in the Cell

No Director has been granted any options over the Participating Shares by the Company.

The Directors may invest, together with the directors and staff of Butterfield Bank (Guernsey) Limited. Currently Michel Davy is the only director that holds Participating Shares in the Cell. He holds Class C Participating Shares in the Cell.

Reporting Status

H M Revenue and Customs granted reporting status for the Cell under The Offshore Funds (Tax) Regulations, 2009 (United Kingdom). Such status imposes obligations on the Company on behalf of the Cell to report to H.M. Revenue and Customs any capital gains made by the realisation of underlying investments and any income received by the Cell and how it has been dealt with in each accounting period.

RISK FACTORS

The risk factors set out below are not exhaustive and do not purport to be a complete explanation of all the risks and considerations involved in investing in the Cell. In particular, the Cell's performance may be affected by changes in market or economic conditions, and legal, regulatory and tax requirements. The Cell will be responsible for paying the fees, charges and expenses referred to in this document regardless of the level of profitability.

Reliance on the Investment Manager: The Cell's investments will be managed by the Investment Manager and its affiliates. Investors will not make decisions with respect to the management, disposition or other realization of any Investment, or other decisions regarding the Cell's business and affairs. Consequently, the success of the Cell's investment portfolios will depend, in large part, upon the skill and expertise of the Investment Manager, its employees and its affiliates.

Volatility: Movements in the Net Asset Value per Participating Share may be volatile. The value of Participating Shares (and any income from them) may fall as well as rise and investors may not get back, on a redemption or otherwise, the amount originally invested. The positions taken out by the Investment Manager may well be based upon their expectations of price movements over a period of several months following the trade. In the meantime, the market value of the positions may not increase, and, indeed, may decrease, and this will be reflected in the Net Asset Values per Participating Share.

Derivative Instruments: The Cell may be invested directly or indirectly in certain derivative instruments, which may *inter alia* include option and future contracts. By writing/selling an option/future contract the Cell takes the theoretical risk that it could incur unlimited losses, whereas by buying it risks losing the entire option premium/price of the contract. Assets deposited as margin with brokers will not be held in segregated accounts by the brokers and may therefore become available to such brokers in the event of their insolvency or bankruptcy.

Redemptions: If there are substantial redemptions of Participating Shares, it may be more difficult for the Cell to generate returns since it will be operating on a smaller asset base. If there are substantial redemption requests within a limited period of time, it may be difficult for the Investment Manager to provide sufficient funds to meet such redemptions without liquidating positions prematurely at an inappropriate time or on unfavourable terms.

Investments in emerging markets: The Cell may invest in emerging markets comprising markets for securities and commodities trading in countries that possess one or more of the following characteristics:

- a certain degree of political instability
- relatively unpredictable financial markets and economic growth patterns
- a financial market that is still at the development stage
- a weak economy.

Emerging markets include all countries that are described as non-established markets. The risks linked to investments in emerging markets include political risks, economic risks, credit risks, exchange rate risks, market liquidity risks, legal risks, settlement risks, market risks, shareholder risk and creditor risks.

Liquidity of Participating Shares: Shareholders are only able to redeem Participating Shares by giving prior notice. The risk of any decline in the Net Asset Value per Participating Share during the period from the date of receipt by the Administrator of notice of redemption until the Dealing Day on which redemption is effected will be borne by the Shareholders. Additionally, Shareholders may not be able to redeem all the Participating Shares they wish to redeem on a Dealing Day if total redemptions for that Dealing Day exceed 10% of the Cell's total issued Participating Shares and will bear any additional risk of any decline in the Net Asset Value per Participating Share until the Dealing Day(s)

on which the Participating Shares are actually redeemed.

Counterparty and settlement risk: The Cell and the third party investment vehicles in which the Cell invests will take a credit risk on parties with whom it trades and will also bear the risk of settlement default.

Income: Since the Cell does not presently intend to pay dividends, an investment in the Cell may not be suitable for investors seeking income returns for financial or tax-planning purposes.

Cross class liability: The Cell currently has three Classes and further Classes may be created in the future. The Cell is treated as one entity. Thus all of the assets of the Cell may be available to meet all of the liabilities of the Cell, regardless of the Class of Participating Shares to which such assets or liabilities are attributable. In practice, cross Class contagion will usually only arise where any Class exhausts its assets and is unable to meet all of its liabilities. In that case, any of the assets of the Cell attributable to the other Classes may be applied to cover the liabilities of that Class.

The performance of the different Classes of Participating Shares may vary due to the effect of hedging the underlying investment currency.

Fraud: Some complex frauds may remain undetected by standard audit, regulatory or administration procedures and there can be no guarantee that losses will not be occasioned by fraud on part of any counterparty with which the Cell deals.

Change of law and politics: Changes in legal, tax and regulatory regimes may occur during the life of the Cell which may have an adverse effect on Investments. The value of the Investments may be affected by uncertainties such as international political developments, changes in governments, government policies, taxation, restrictions on foreign investment and currency repatriation, currency fluctuations and other developments in the laws and regulations of the countries in which the Cell's assets are invested.

EU Council list of non-cooperative jurisdictions: On 5 December 2017, the EU Council released a list of non-EU jurisdictions (which has since been updated on a number of occasions) that are deemed by the EU Council to be "non-cooperative jurisdictions" for tax purposes (the "Blacklist") and a list of additional non-EU jurisdictions that had committed to introduce specified amendments to their tax regimes by 2018/2019 in order to remain off the Blacklist (the "Grey List"). Guernsey had been listed by the EU Council as a member of the Grey List pending its adoption of appropriate economic substance legislation by the end of 2018. Guernsey adopted economic substance legislation within the timeframe and on 12 March 2019 the EU Council confirmed that Guernsey had met its commitment and removed Guernsey from the Grey List. Guernsey remains off the Blacklist. A jurisdiction's inclusion on the Blacklist may result in EU Member States imposing both tax and non-tax defensive measures against entities that are present in that Blacklisted jurisdiction. These could include measures such as increased monitoring and audits, withholding taxes, special documentation requirements and anti-abuse provisions. It should be understood that a relevant jurisdiction's inclusion on the Blacklist may have an adverse impact on any companies that are connected with that jurisdiction. If countermeasures such as these were to be applied to any jurisdiction in which the Company is resident or operates there could be tax implications and/or additional compliance requirements for the structure which could reduce returns to investors in the Company or result in other adverse tax consequences. As the Company is regulated in Guernsey as a collective investment scheme, it should not be subject to the economic substance legislation adopted by Guernsey.

Economic substance Guernsey has recently implemented legislation requiring certain Guernsey tax resident companies (including those exempt from Guernsey income taxation under section 40A of the Income Tax (Guernsey) Law, 1975) to have economic substance in Guernsey. As a fund regulated by

the GFSC the company is not required to demonstrate economic substance in Guernsey, provided that it remains managed by an external investment manager. The current appointment of the Investment Manager is sufficient to satisfy this requirement.

Public health risks and deterioration in market conditions The Cell may operate in countries that are susceptible to epidemics and/or pandemics, such as severe acute respiratory syndrome, avian flu, H1N1/09 flu and, most recently, the COVID-19 coronavirus pandemic. The COVID-19 pandemic (and other outbreaks of infectious diseases in the future) could have a negative impact on the Cell's ability to implement its investment programme, as well as on the performance of the Cell's investments.

Political and Economic Risks

The value of Participating Shares may be affected by uncertainties such as political or diplomatic developments, war, social and religious instability, changes in government policies, taxation and interest rates, currency repatriation and transfers and other political and economic developments in law or regulations.

General risks: The continued success of the Cell will be dependent on the performance of the Investment Manager and of the Investments. No assurance can be given that they will succeed in meeting the Cell's investment objective or that their assessments of the short-term or long-term prospects, volatility and correlation of the types of investments referred to in this document will prove accurate.

Potential investors who are in any doubt as to the risks involved in investment in the Cell are recommended to obtain independent financial advice before making an investment.

Deferral of Conversions and Redemptions

The Directors may, at their discretion, limit the total number of Participating Shares in the Cell which may be redeemed on any Dealing Day to 10 per cent of the total number of Participating Shares of the Cell in issue at the relevant time. The limitation will be applied pro rata to all Shareholders who have requested redemptions to be effected on or as at such Dealing Day so that the proportion of each holding redeemed is the same for all such Shareholders. Any Participating Shares which, by virtue of this limitation, are not redeemed on any particular Dealing Day shall be carried forward for redemption on the next Dealing Day at the Redemption Price ruling on that Dealing Day. In respect of any Dealing Day to which redemption requests (“**Deferred Requests**”) are deferred, such requests will be dealt with in priority to other requests for redemption of Participating Shares on that day (“**Other Requests**”) until the Deferred Requests have been satisfied in full. The deferral powers described in this paragraph shall apply mutatis mutandis to any Other Requests which, as a result of the above limit, have not been satisfied in full on any Dealing Day.

If at any time after the first anniversary of the date of the Company’s incorporation the aggregate Net Asset Value of all Cells then in existence (calculated as though for the purpose of computing the price

at which Participating Shares are to be issued) is less than £2 million on each Dealing Day during a consecutive six week period the Directors may, on not less than 21 days' notice redeem all Participating Shares in the Company not previously redeemed.

Exchange of Class B Participating Shares for Class C Participating Shares
